

New York State Cancer Consortium

Mission: "To reduce the human and economic burden of cancer in New York State."

Who We Are

The New York State (NYS) Cancer Consortium (Consortium) is a voluntary network of individuals and organizations that collaborate to address NYS' cancer burden.

Our network is made up of more than 200 members from public and private sectors whose missions are aligned with reducing cancer incidence and mortality.

2018-2023 Plan Priorities

Cancer-Related Health Equity

Health Promotion & Cancer Prevention

Early Detection

Treatment

Palliative Care

Survivorship

Health Care Workforce

What We Do

The Consortium and its members are guided by the NYS Comprehensive Cancer Control Plan (Plan). This five-year plan sets objectives and offers strategies for reducing NYS' cancer burden. The Plan is available for use by all New Yorkers.

The Consortium's main activities are:

- Develop and update the Plan every 5 years
- Implement strategies offered in the Plan
- Track progress on 24 of the Plan's cancer indicators
- Send a bi-monthly e-newsletter to share information about cancer prevention and control activities, educational and funding opportunities

For More Information
