## Medicaid Managed Care Advisory Review Panel (MMCARP)

Agenda Items	Discussion	Action Items
<p>MMCARP Bylaw Subcommittee Update</p>	<p>Erin Kate Calicchia, reported the following:</p> <p>The expected final version of the bylaws was sent to the committee members in early September; however, since distribution, substantive comments were received from a committee member. Erin Kate will reconvene the subcommittee to address the outstanding issues and will circulate a new draft, hopefully for adoption, at the next meeting.</p> <p>Fred C. commented that he has concerns around Robert's Rules of Order, ethics provisions, free flow of meetings; including panel members ability to suggest bylaw changes and agenda items. Fred C. requests that these concerns be addressed during the subcommittee meeting.</p>	<p><b>Motion Passed- That Fred Cohen's concerns be addressed by the bylaw subcommittee.</b></p>
<p>1115 Medicaid Waiver</p>	<p>Jonathan Bick (NYSDOH), reported the following:</p> <p><b>Submission of Concept Paper for Addressing the Health Disparities Exacerbated by the COVID -19 Pandemic</b></p> <p><b>Concept Paper: Overview &amp; Themes</b></p> <ul style="list-style-type: none"> <li>• <b>Term and Amount:</b> Comprehensive waiver amendment that would authorize new federal funding over a multi-year period. <ul style="list-style-type: none"> <li>○ Reflects size and scale of the pandemic in revealing gaps in our delivery system.</li> <li>○ Proposal is \$17 billion over five years, which will be subject to budget neutrality rebasing and availability of sources of financing.</li> </ul> </li> <li>• <b>Themes of Proposed Demonstration:</b> Address the inextricably linked health disparities and systemic health care delivery issues that have been both highlighted and intensified by the COVID-19 pandemic. <ul style="list-style-type: none"> <li>○ Aligns with stated goals of the Biden administration to promote health equity and address health care disparities by fully integrating health care, behavioral health, and social care interventions (i.e., the social determinants of health).</li> <li>○ Builds on the long-term movement to <i>value-based payment (VBP) arrangements</i>, including global and fully prepaid arrangements, as means of achieving provider payment stability during unexpected fluctuations in utilization.</li> <li>○ Reflects New York's experience as the early epicenter of the pandemic, so that the State is able to "Build Back Better."</li> </ul> </li> </ul>	<p>Elisabeth Benjamin asked if there is evidence that VBP is decreasing racial disparities and promoting health equity?</p> <p>At this time, the research and data from the NYS DSRIP waiver or national levels is not conclusive regarding a direct or causal relationship between implementation of VBP and decreased racial disparities and promotion of health equity.</p>

Agenda Items	Discussion	Action Items																																																																																																																																							
Auto-Assignment Report	<p>Gayle Emrich (NYSDOH) discussed the August Medicaid Managed Care Auto Assignment Report. 10 counties were over the 30% rolling benchmark for the SSI population. The counties that are over 30% were: Chemung, Clinton, Cortland, Herkimer, Jefferson, Madison, Otsego, Schenectady, and Steuben. All these counties have a sampler of less than 50 new enrollees except for Schenectady county. Gayle will reach out to Schenectady county. Of note, Schuyler only had three new enrollee and two were auto assigned.</p>

This assessment will be used by the MCO or LDSS to develop a plan of care (POC) and may also be used by provider organizations such as Adult Day Health Care Centers. In the case of Managed Long Term Care (MLTC) Plans, the same CHA will determine eligibility for plan enrollment on both a mandatory and voluntary basis. The current Conflict Free Evaluation and Enrollment Center (CFEEC) managed by Maximus will become the New York Independent Assessor (NYIA) under a contract with Maximus.</li> </ul>

<p>Status Report of Managed Long Term Care (MLTC)</p>	<ul style="list-style-type: none"> <li>• <b>Independent Practitioner Panel:</b> The regulations replace the requirement for a physician’s order to authorize PCS/CDPAS with a requirement that these services are ordered by a qualified, independent practitioner, and expand the list of ordering practitioners to include Medical Doctors (MD), Doctors of Osteopathy (DO), Nurse Practitioners (NP) and Physician Assistants (PA) contracted to work for the Independent Practitioner Panel (IPP) under the NYIA. The IPP will issue the Practitioner’s Order (PO) required to authorize PCS and/or CDPAS after reviewing the CHA in the UAS-NY, determining if the individual is self-directing or has an appropriate self-directing other, and if the individual can safely receive PCS/CDPAS at home based on their medical stability.</li> <li>• <b>Independent Review Panel:</b> For high needs cases, the regulations require an additional medical review be conducted the first time an authorization for PCS/CDPAS exceeds twelve hours a day, on average, which will be conducted by an Independent Review Panel (IRP) under the NYIA. The IRP will review the individual’s CHA, PO and POC, and may evaluate other records as needed to recommend whether the proposed POC is reasonable and appropriate to maintain the individual’s health and safety at home. The IRP recommendation to the MCO or LDSS may include suggested changes in scope, type, amount, or duration of services but cannot specify a recommended number of hours.</li> <li>• <b>Minimum Need Requirements:</b> The regulations require, for new authorizations of individuals who have never received PCS/CDPAS prior to a date to be determined by the Department, the individuals must meet a minimum requirement for assistance with Activities of Daily Living (ADLs) to qualify for PCS/CDPAS. To be authorized for services, these individuals must need at least limited assistance with more than two ADLs or, if diagnosed with dementia or Alzheimer’s Disease, at least supervision with more than one ADL. These minimum need requirements apply to both service eligibility and MLTC plan enrollment eligibility.</li> <li>• <b>One fiscal intermediary (FI):</b> The regulations require consumers, or if applicable the consumer’s designated representative, to work with only one FI at a time no matter how many Personal Assistants (PAs) are hired to cover the authorized hours.</li> <li>• <b>Annual CDPAP notification:</b> Eliminates the requirement for LDSS and MCOs to annually notify recipients of other home care services of the availability of the CDPAP.</li> <li>• <b>Consumer and designated representative responsibilities:</b> The regulations require the consumer’s designated representative to be available to ensure that the consumer responsibilities are carried out without delay.</li> <li>• <b>Strengthen and clarify denial reasons and requirements:</b> The regulations codify longstanding department policies on documenting the bases and rationales for LDSS and MCO actions to deny, discontinue or reduce services, and clarify in regulation additional appropriate bases for such actions.</li> </ul>

Additional Motion	As the Mainstream Medicaid Managed Care Program Update was informational only, the following motion was held until the end of the meeting, prior to the public comment.	<p><b>Motion Passed- Elisabeth Benjamin requested that the Department consider building in enhanced reimbursement rates for ABA services performed by LBAs.</b></p> <p>Given the potential fiscal impacts, this will require consideration as part of the larger budget process.</p>
Public Comment	<p>Donna Campbell, Payor Relations Director at BioReference Lab, asked that CPT 81507, non-invasive prenatal screening, have a rate assigned instead of being by-report, as plans are having difficulty reimbursing or are not reimbursing at all.</p> <p>Jonathan Bick asked that Ms. Campbell email the Managed Care Complaints BML. Their email address is <a href="mailto:Managedcarecomplaint@health.ny.gov">Managedcarecomplaint@health.ny.gov</a>.</p> <p>Per the Division of Program Development and Management, the codes for Noninvasive prenatal testing (NIPT), including 81507, must remain by-report as there is criteria which needs to be met for reimbursement. CPT 81507 is currently reimbursed by Medicaid FFS at \$425.</p>
