Q1: OPTIONAL: This recommendation was submitted by (please provide your first and last name, affiliation, and email address)

First Name	Lilibeth
Last Name	Gonzalez
Affiliation	GMHC
Email Address	lillyzalez@hotmail.com

Q2: Title of your recommendation PrEP for Women

Q3: Please provide a description of your proposed recommendation *Respondent skipped this question*

Q4: For which goal outlined in the Governor's plan to end the epidemic in New York State does this recommendation apply? (Select all that apply) Facilitating access to Pre-Exposure Prophylaxis (PrEP) for high-risk persons to keep them HIV negative

Ending the Epidemic Task Force Recommendation Form

Q5: This recommendation should be considered by the following Ending the Epidemic Task Force Committee (Select all that apply)

Prevention Committee: Develop recommendations for ensuring the effective implementation of biomedical advances in the prevention of HIV, (such as the use of Truvada as pre-exposure prophylaxis (PrEP)); for ensuring access for those most in need to keep them negative; and for expansion of syringe exchange, expanded partner services, and streamlined HIV testing by further implementing the universal offer of HIV testing in primary care, among others. The Committee will focus on continuing innovative and comprehensive prevention and harm reduction services targeted at key high risk populations, as well as grant-funded services that engage in both secondary and primary prevention.

Data Committee: Develop recommendations for metrics and identify data sources to assess the comprehensive statewide HIV strategy. The Committee will determine metrics that will measure effective community engagement/ownership, political leadership, and supportive services. It will also determine metrics that will measure quality of care, impact of interventions and outcomes across all populations, particularly identified sub populations such as transgender men and women, women of color, men who have sex with men and youth. In addition, the Committee will evaluate to determine optimal strategies for using data to identify infected persons who have not achieved viral suppression and address their support service, behavioral health, and adherence needs.

Q6: Does this recommendation require a change to an existing policy or program, or the creation of a new policy or program?

New program

Q7: Would implementation of this recommendation be permitted under current laws or would a statutory change be required?

Unknown

Q8: Is this recommendation something that could feasibly be implemented in the short-term (within the next year) or long-term (within the next three to six years)?

Within the next three to six years

Q9: What are the perceived benefits of implementing this recommendation?

Women will have access to information on PrEP. Attend groups, forums and community wide events. Meet other women on PrEP and get information on the efficacy.

Ending the Epidemic Task Force Recommendation Form

Q10: Are there any concerns with implementing this recommendation that should be considered?

Respondent skipped this question

Q11: What is the estimated cost of implementing this recommendation and how was this estimate calculated?

Respondent skipped this question

Q12: What is the estimated return on investment (ROI) for this recommendation and how was the ROI calculated?

Respondent skipped this question

Q13: Who are the key individuals/stakeholders who would benefit from this recommendation?

Respondent skipped this question

Q14: Are there suggested measures to accompany this recommendation that would assist in monitoring its impact?

Respondent skipped this question

Q15: This recommendation was submitted by one of the following

Advocate
