This annual report of the New York State Department of Health (NYS DOH) Youth Access Tobacco Enforcement Program is prepared in accordance with Section 1399-kk of the Public Health law and is submitted by the Commissioner of Health to the Governor and the Legislature.

ACKNOWLEDGEMENTS

Special thanks go to the local health department enforcement officers, the New York City Department of Consumer Affairs and the youth who participated in the access compliance check surveillance program. For over nine years these dedicated agencies and individuals have been the leaders in the state's effort to increase retailer compliance with the public health law in our communities.

Staff of the New York State Department of Health's Bureau of Community Environmental Health and Food Protection Tobacco Enforcement Program prepared this report with data provided from the local enforcement officers, other state agencies and programs within the Department of Health.

The New York State Department of Health's Tobacco Control Program and the New York State Education Department supplied information regarding tobacco use and trends among minors. The State Department of Taxation and Finance provided registration and revenue data. The Department of State's Office of Fire Prevention and Control supplied data regarding fires.

PREFACE

The purpose of New York's Adolescent Tobacco Use Prevention Act is to promote and protect the public health of New Yorkers by reducing children's access to cigarettes and other tobacco products. It has been well documented that most smokers begin before they are 18 years old and half before they are 15. Many people who start smoking as youth find it nearly impossible to quit during their lifetime.

The Adolescent Tobacco Use Prevention Act requires retailers to obtain positive proof that the person buying cigarettes is over the age of 18. Retailers found in violation of this law are subject to fines, and loss of their tobacco registration and lottery license for repeated violations. The law also limits the location of vending machines and limits the venues in which free tobacco products can be distributed. These enforcement measures are aimed at making tobacco products less accessible to minors, and are a part of the State's \$85 million comprehensive anti-smoking program.

This Annual Report is prepared by the Tobacco Enforcement Program, which is located in the New York State Department of Health's Center for Environmental Health. The report covers the time period of October 1, 2005 – September 30, 2006, and includes the following information:

- Number of tobacco compliance checks that were conducted;
- Names and addresses of tobacco vendors who sold tobacco products to underage youth and were penalized;
- New York State Results of the 2006 National Youth Tobacco Survey;
- Tobacco sales data from the State Department of Taxation and Finance; and
- Tobacco related fire injury data from the Department of State's Fire Reporting System.

During the 2005 – 2006 program year, state and local enforcement officers conducted over 40,000 inspections of tobacco retailers to assess compliance with the State's Public Health Law (Adolescent Tobacco use Prevention Act). Of these inspections, nearly 30,000 included unannounced compliance checks where minors attempted to purchase tobacco under the direct supervision of the enforcement official. Over 10,000 additional visits were made to determine compliance with Department of Health signage requirements and Department of Taxation and Finance registration requirements, to educate retailers of the Public Health Law, to verify vending machine supervision and location compliance, and/or to investigate complaints. Three thousand two hundred ten enforcement actions were taken for sales of tobacco products to minors and over \$2.5 million in fines were assessed.

In the last nine years (1997-2006) state grants totaling over \$30 million were awarded to local enforcement officials to implement the Tobacco Enforcement Program which resulted in a decline in the rate of non-compliance by retailers from 19 percent to 10 percent. From 1997 to 2006, more than \$20 million in fines have been levied against 27,618 retailers for selling tobacco to minors. The Department of Taxation and Finance has suspended the registrations of 854 tobacco retailers as a result of multiple enforcement actions for selling tobacco to underage youth. There were also 237 lottery agent licenses suspended for six months for multiple sales to minors. Of the 338,154 compliance inspections that have taken place during the nine years, 234,975 were conducted with the assistance of minors attempting to purchase tobacco products.

Questions concerning this report should be referred to the New York State Department of Health's Bureau of Community Environmental Health and Food Protection, Tobacco Enforcement Program at (518) 402-7600 or 1-800-458-1158, extension 2-7600.

Center for Environmental Health
Youth Access Tobacco Enforcement Program Annual Report
October 1, 2005 – September 30, 2006

Program Overview

In September 2006, the New York State Department of Health completed its ninth program year of tobacco access enforcement statewide. As part of the State's continued commitment to preventing youth access to tobacco, \$5.8 million was distributed during this ninth year to local enforcement officers to determine retail tobacco vendor compliance with Article 13-F of the Public Health Law, also known as the Adolescent Tobacco Use Prevention Act (ATUPA).

The ATUPA enforcement program is part of the State's \$85 million anti-smoking and tobacco control initiative. From October 1997 through September 2006, New York State awarded over \$30 million in funding to partners at the local level in the fight to keep tobacco products away from New York's children. The State's \$85 million anti-smoking campaign also includes:

- Community Mobilization – 29 community partnerships provide services in every county of the State and specifically work to denormalize tobacco use and support and promote a tobacco free norm. Partnerships engage local stakeholders, educate community leaders and the public, and mobilize the community to strengthen tobacco-related policies to restrict the use and availability of tobacco products and limit opportunities for exposure to secondhand smoke. Community partnerships work with local businesses, employers, work places, health care institutions and providers, and schools and community groups to implement effective tobacco-free policies, change public opinion about tobacco and tobacco use, and promote access to cessation services for those who desire assistance to stop smoking. Community partnerships have been successful in promoting initiatives to strengthen clean indoor air laws, product placement laws, tobacco advertising restrictions, and youth access laws and penalties. Partnerships have implemented multi-media campaigns, school and community events as well as other activities to inform, educate, engage and empower the general population in order to decrease the social acceptability of tobacco use.

- 46 Youth Action Programs involve young people in every county in the anti-tobacco movement. Youth receive extensive training about tobacco-related issues, advocacy and social norm change and they take action to expose the deceptive marketing strategies of the tobacco industry and reduce the social acceptability of tobacco use. Branded under the name Reality Check, program initiatives have included exposing the deceptive marketing tactics of the tobacco industry, promoting positive modeling in the entertainment industry; designing and conducting attitude and behavior surveys; community mapping of industry advertising practices; community education linked to social action; and media advocacy. In addition, 32 School Policy partners are funded to facilitate tobacco-free policies in secondary schools and school districts throughout the state.
- 19 Cessation Centers throughout the state work with health care organizations and providers in their communities to establish systems that diagnose tobacco dependence and remind the clinician to advise the patient to quit and provide the assistance necessary to quit successfully.
- The use of mass media to educate the public about the dangers of tobacco use is considered a critical part of a comprehensive tobacco control program. Other interventions on the local level are less effective in the absence of a media campaign to support changes in social norms. The tobacco education media program includes television, radio, web, billboard and print advertising, with the goals of educating New Yorkers about the health risks of tobacco use and the dangers of secondhand smoke, motivating tobacco users to stop, and promoting use of the New York State Smokers' Quit Line.
- The Smoker's Quit Line provides quitting assistance and services, including telephone counseling and resources, a starter kit of nicotine replacement therapy, and follow up support to help New Yorkers stop smoking. The Quit Line number is 1-866-NY QUIT, 1-866-697-8487 or on-line at the NYS Smokers' Quitsite <http://www.nysmokefree.com>
- Surveillance and Evaluation – These activities are designed to assess, quantify and understand the impact of the tobacco control program. The Department contracts with Research Triangle Institute of North Carolina, in collaboration with Roswell Park Cancer Institute, to conduct the independent evaluation of the program.

Program Purpose

The goal of the program is to lower the prevalence of tobacco use among youths by reducing tobacco product sales and preventing the onset of its use by this population. Specifically, the program seeks to improve compliance by tobacco retailers with the ATUPA.

Status and Accomplishments

This section lists accomplishments and status of the initiative, and information required by the Public Health Law.

The New York State Department of Taxation and Finance reported the following information.

- a. Total number of registered tobacco retailers and vendors: A total of 25,982 tobacco retailers were registered as of August 2006.
- b. Total number of vending machines registered: In 2006, there were 3,720 registered vending machines.
- c. Number of cigarettes sold in New York State: Approximately 12.5 billion cigarettes were sold in New York State for the fiscal year ending March 31, 2006; of this number, approximately 3.1 billion were sold in New York City.
- d. Tax revenue collected from the sale of tobacco products: Excluding state and local sales tax, the “tax revenue” the state collected from the sale of cigarettes and tobacco products for the fiscal year ending March 31, 2006 totaled approximately \$971.4 million, and resulted from licensure and excise tax.

Licensure:	retail vendors:	\$2.7 million
	vending machines:	\$93,000
Excise tax:	cigarettes:	\$932 million
	tobacco products:	\$39.4 million

The New York State Department of Health reported the following information.

- a. The number and type of compliance checks conducted: State and local enforcement officers conducted 40,450 compliance inspections during the ninth program year. Of these, 29,890 were compliance checks using underage youth to attempt over-the-counter purchases of tobacco products. Additional visits were made to determine compliance with Department of Taxation and Finance registration and/or Department of Health signage requirements, to educate operators of the Public Health Law requirements, to verify vending machine supervision and location compliance, and/or to investigate complaints. Appendix 1 reflects a county-by-county listing.

- b. Number of complaints filed against registered tobacco retailers and vendors: One hundred fifty-three complaints were filed against “registered” retailers. Appendix 1 lists a county-by-county breakdown.

- c. The names and addresses of retailers and vendors reported by local enforcement officers to have paid fines or been penalized otherwise due to tobacco enforcement actions: The names are listed by county in Appendix 2.

- d. The number of tobacco users and trends among minors: New York State conducts a Youth Tobacco Survey every other year to develop statewide estimates of tobacco use and related behaviors and attitudes for students from grades 6 to 12. The survey includes questions about tobacco use, exposure to environmental tobacco smoke, minors’ ability to purchase or otherwise obtain tobacco products, knowledge and attitudes about tobacco, and familiarity with pro- and anti-tobacco media messages. A total of 88 public, parochial or other private schools agreed to participate in the survey with a total of 7,306 students completing the survey in the spring of 2006. The results of the survey are applicable to New York State youth attending middle school or high school. There was a significant downward trend in current use of cigarettes by high school students from 2000 (27.1%) to 2002 (20.4%) to 2004 (18.2%) to 2006 (16.3%), and for middle school students 2000 (10.5%) to 2002 (6.3%) to 2004 (4.8%) to 2006 (4.1%). Additional data for 2006 are found in Appendix 4.

- e. Funding disbursement: Appendix 5 lists the funding amounts distributed to 34 county health departments and the New York City Department of Health and Mental Hygiene to conduct, as enforcement officers, youth access tobacco enforcement activities. As guided by Section 1399-hh of the Public Health Law, funding was based on the number of retail facilities registered with the Department of Taxation and Finance to sell tobacco products within the local health department's jurisdiction. Staff from nine state health department district offices conducted compliance checks in the 23 upstate counties that are not or did not wish to be the enforcement officer.

- f. Enforcement: Two hundred twenty tobacco vendors were reported to the Department of Taxation and Finance for lack of required registration to sell tobacco products. As a result, the Department of Taxation and Finance will verify the status and notify unregistered vendors of the need to pay a fee to gain a registration and fine them up to \$3,500 for non-compliance.

During compliance checks, under-aged youth purchased tobacco 2,949 times. By the close of the program year, health officers had assessed fines totaling \$2,598,600 against these tobacco vendors for sales of tobacco products to underage youth and finalized enforcement against 3,210 of the vendors. Fines collected for the year totaled \$2,211,547, with unfinished enforcement actions carrying over into the ninth program year.

During the reporting period, a total of 475 tobacco retailer's registrations to sell tobacco products were suspended by the Department of Taxation and Finance as a result of multiple enforcement actions for selling tobacco to underage youth. Of this total, 472 were suspended for six months, one for one year and two permanently revoked. There were also 147 lottery agent licenses suspended for six months for multiple sales to minors.

g. Impact of nine program years:

	October 1997 through September 1998	October 1998 through September 1999	October 1999 through September 2000	October 2000 through September 2001	October 2001 through September 2002	October 2002 through September 2003	October 2003 through September 2004	October 2004 through September 2005	October 2005 through September 2006	9 Year TOTAL
Number of checks to assure compliance regarding prohibiting sale of tobacco to minors	20,942	19,146	24,156	27,190	27,010	30,074	29,951	26,616	29,890	234,975

Number of suspended lottery licenses				3	25	4	20	38	147	237
Number of unregistered vendors reported to the Department of Taxation and Finance	3,600	930	1,338	738	454	410	200	105	220	7,995

* Other Regulatory Requirements include proper Department of Taxation and Finance registration compliance, posting required signs, educating operators of the Public Health Law requirements, verifying vending machine supervision and proper location, attempting compliance checks and/or investigation of complaints.

** Includes compliance checks conducted by adult inspectors for out of the package cigarettes, self-service restrictions, bidis, gutka, etc.

The New York State Department of State reported the following information.

- a. Number of fires caused or believed to be caused by tobacco products and deaths and injuries resulting therefrom: The New York State Department of State's Fire Reporting System data for the period of October 1, 2005 – September 30, 2006, identified 702 fires classified as being caused by abandoned or discarded smoking materials. There were 16 deaths and 27 injuries to civilians resulting from fires caused by cigarettes. Three firefighters were also injured. Appendix 6 includes a breakdown of this information by county.

The New York State Education Department reported the following information.

- a. A survey of attitudes and behaviors regarding tobacco use among minors: During 1999, 2003 and again in 2005, the New York State Education Department conducted a Centers for Disease Control and Prevention (CDC) funded statewide "Youth Risk Behavior Survey" (YRBS) of students in New York State (including New York City) schools. The survey contains several questions on youth tobacco use and is conducted every 2 years. For each survey, a new sample of schools and students is selected. Student participation is voluntary. In 1999, 3,312 9th through 12th grade students representing 97 schools participated. In 2003, 9,320 9th through 12th grade students representing 140 schools participated (the sample from the 2001 survey was not large enough to be compiled into weighted data). In 2005, 9,708 9th through 12th grade students representing 146 schools participated. Data for 1999, 2003 and 2005 is included in Appendix 3.
