This annual report of the New York State Department of Health (NYDOH) Youth Access Tobacco Enforcement Program is prepared in accordance with Section 1399-kk of the Public Health Law and is submitted by the Commissioner of Health to the Governor and the Legislature.

ACKNOWLEDGEMENTS

Special thanks go to the local health department enforcement officers, the New York City Department of Consumer Affairs and the youth who participated in the access compliance check surveillance program. For more than 13 years, these dedicated agencies and individuals have been the leaders in the State's effort to increase retailer compliance with the public health law in our communities.

Staff of the New York State Department of Health's Bureau of Community Environmental Health and Food Protection, Tobacco Enforcement Program prepared this report with data provided from the local enforcement officers, other state agencies and programs within the Department of Health. The New York State Department of Health's Tobacco Control Program and the New York State Education Department supplied information regarding tobacco use and trends among minors. The State Department of Taxation and Finance provided registration and revenue data. The Department of State's Office of Fire Prevention and Control supplied data regarding fires.

PREFACE

The purpose of New York's Adolescent Tobacco Use Prevention Act is to aid in reducing morbidity and mortality caused by tobacco use by reducing children's access to cigarettes and other tobacco products. It has been well documented that most smokers begin before they are 18 years old and half before they are 15. Many people who start smoking as youth find it nearly impossible to quit during their lifetimes. For more than 13 years, state and local enforcement officials have been increasingly successful at reducing youth access to tobacco products and improving retailer compliance with the Adolescent Tobacco Use Prevention Act, realizing a reduction in the rate of non-compliance by retailers from 19% in 1997 to 5.9% in 2010.

The Adolescent Tobacco Use Prevention Act requires retailers to obtain positive proof that the person buying cigarettes is over the age of 18. Retailers found in violation of this law are subject to fines and loss of their tobacco registrations and lottery licenses for repeated violations. The law also limits the location of vending machines and limits the venues in which free tobacco products can be distributed. These enforcement measures are aimed at making tobacco products less accessible to minors and are a part of the State's \$59.26 million comprehensive anti-smoking program (2010 expenditures).

This Annual Report is prepared by the Tobacco Enforcement Program, located in the New York State Department of Health's Center for Environmental Health. The report covers the time period October 1, 2009 – September 30, 2010, and includes the following information:

- Number of tobacco compliance checks that were conducted;
- Names and addresses of tobacco vendors who sold tobacco products to underage youth and were penalized;
- New York State results of the 2010 National Youth Tobacco Survey;
- Tobacco sales data from the State Department of Taxation and Finance; and
- Tobacco-related fire injury data from the Department of State's Fire Reporting System.

During the 2009 – 2010 program year, state and local enforcement officers conducted 33,464 inspections of tobacco retailers to assess compliance with the State's Public Health Law (Adolescent Tobacco Use Prevention Act). Of these inspections, more than 25,032 included unannounced compliance checks where minors attempted to purchase tobacco under the direct supervision of the enforcement officials. Over 8,400 additional visits were made to determine compliance with Department of Health signage requirements and Department of Taxation and Finance registration requirements, to educate retailers about the Public Health Law, to verify vending machine supervision and location compliance and/or to investigate complaints. A total of 1,790 enforcement actions were taken for sales of tobacco products to minors and more than \$1.375 million in fines were assessed.

In the last 13 years (1997-2010), state grants totaling more than \$51.5 million were awarded to local enforcement officials to implement the Tobacco Enforcement Program, which resulted in a decline in the rate of non-compliance by retailers from 19.0 percent to 5.9 percent. From 1997 to 2010, more than \$26.2 million in fines have been levied against 36,099 retailers for selling tobacco to minors. The Department of Taxation and Finance has suspended the registrations of 2,441 tobacco retailers as a result of multiple enforcement actions for selling tobacco to underage youth. There were also 631 lottery agent licenses suspended for multiple sales to minors. Of the 483,643 compliance inspections that have taken place during the 13 years, 343,818 were conducted with the assistance of minors attempting to purchase tobacco products.

**New York State Department of Health (NYSDOH)
Center for Environmental Health
Youth Access Tobacco Enforcement Program Annual Report
October 1, 2009 – September 30, 2010**

Program Overview

In September 2010, the New York State Department of Health (NYSDOH) completed its thirteenth program year of youth tobacco access enforcement statewide. As part of the State's continued commitment to preventing youth access to tobacco, \$5.715 million was awarded to local enforcement officers to determine and enforce retail tobacco vendor compliance with Article 13-F of the Public Health Law, also known as the Adolescent Tobacco Use Prevention Act (ATUPA).

The ATUPA enforcement program is part of the State's comprehensive anti-smoking and tobacco control initiative, the New York Tobacco Control Program (NY TCP). In 2009-2010, the NY TCP was funded through a state appropriation of \$55.1 million and a grant from the federal Centers for Disease Control and Prevention (CDC) of \$4.161 million. The NY TCP targets tobacco use by promoting cessation, reducing the social acceptability of tobacco use, preventing initiation, addressing disproportionately high smoking rates in specific population groups and eliminating exposure to secondhand smoke. The NY TCP uses a multi-pronged strategic approach to reduce tobacco use in the population and seeks to impact the population as a whole through:

Statewide and community action to change the community environment to support the tobacco-free norm, change community attitudes about tobacco and de-normalize tobacco use. A key outcome of the NY TCP's community mobilization strategy is the adoption and effective implementation of local and statewide policies that permanently change society's acceptance of tobacco use.

Health communication to increase awareness of the dangers of tobacco use and secondhand smoke and motivate tobacco users to stop, to expose tobacco industry propaganda and de-glamorize tobacco use and educate community members and decision makers about tobacco control. A key outcome of the NY TCP's health communication strategy is better-educated community members and decision makers who will support effective tobacco control policies and take personal action toward a tobacco-free New York.

Cessation interventions to establish and maintain community, governmental and health care delivery systems that promote cessation, increase access to and delivery of evidence-based cessation services and motivate individual tobacco users to quit successfully. Key outcomes of the NY TCP's cessation interventions are provision of guideline-concordant tobacco dependence treatment by the health care sector and adoption of policies that motivate smokers and other tobacco users to quit.

The NY TCP is supported by surveillance and evaluation activities to monitor program progress and impact and by program administration to provide technical assistance and guidance and manage the effective and efficient investment of state tobacco control funding. The NY TCP strives to contribute to the science of tobacco control through surveillance and evaluation of program initiatives and dissemination of program findings.

NY TCP Community Action Areas

The NY TCP is implemented through statewide and community programs directed and managed by staff at the NYSDOH. Community action areas other than the Tobacco Enforcement Program include: community partnerships for tobacco control, youth action programs and tobacco-free school policy programs.

Community Partnerships for Tobacco Control. Community partnerships work with local governments and decision makers, local businesses and employers (including tobacco retailers), community organizations, health care institutions and providers and schools and community groups to address tobacco company advertising, sponsorship and promotion; implement effective tobacco-free policies in the outdoor environment; change public opinion about tobacco and tobacco use; and promote access to evidence-based cessation services. Community partnerships engage local stakeholders and decision makers, educate community leaders and the public, mobilize the community to strengthen tobacco-related policies to restrict tobacco companies presence in the community, reduce the use and availability of tobacco products in the community, and limit opportunities for exposure to secondhand smoke. Community partnerships take a policy advocacy approach to creating communities that support and reinforce the tobacco-free norm and dismantling the community policies and practices that promote and support tobacco use.

Reality Check. Reality Check engages youth leaders to challenge and change community norms regarding tobacco use through civic action. The programs engage middle- and high-school-aged youth in actions aimed at de-glamorizing and de-normalizing tobacco use in their communities and exposing the manipulative and deceptive marketing practices of the tobacco industry. Reality Check programs use community education linked to social action, media advocacy, community events and advocacy with decision makers to obtain pro-tobacco control policies and resolutions at the local, state and national levels.

Public Health Communications

Public health communications focused on tobacco include paid placement of advertising on television, radio, print, Internet and other venues, with the goals of educating New Yorkers about the health risks of tobacco use and the dangers of secondhand smoke, motivating tobacco users to stop and promoting use of the New York State Smokers' Quitline; coverage and discussion of tobacco control issues and events in the news media; and strategic use of both paid and earned media to advocate for tobacco control policies and practices.

Cessation Interventions

The most effective interventions to support cessation are raising the price of tobacco products, banning smoking from workplaces and public places and running emotionally evocative paid media campaigns that make a compelling case for quitting.

In addition to these environmental interventions, the NY TCP:

- Provides support to health care organizations and providers to establish the policies, practices and procedures to deliver effective tobacco dependence treatment through the work of 19 contracted tobacco cessation centers; and
- Offers telephonic and web-based information, resources, coaching and “starter kits” of nicotine medication to help smokers quit through the New York State Smokers' Quitline, operated under contract by the Roswell Park Cancer Institute.

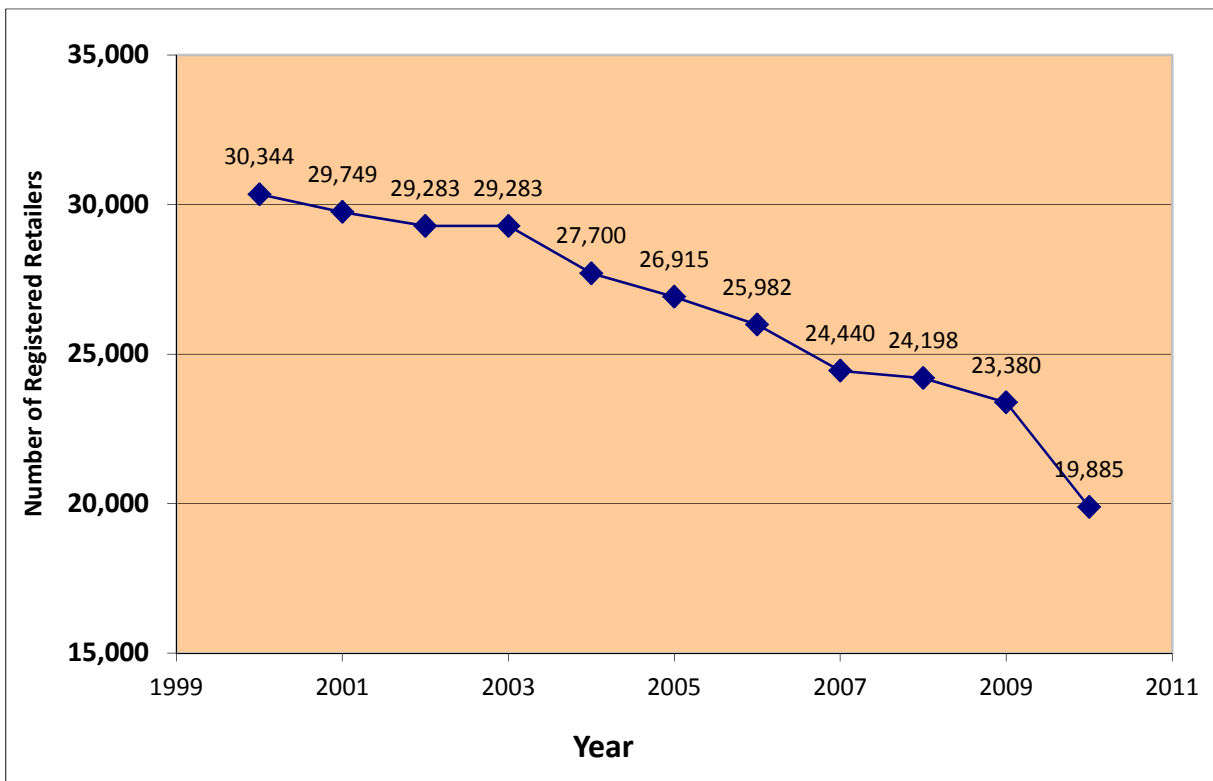

Program Purpose

The goal of the Tobacco Enforcement Program is to lower the prevalence of tobacco use among youth by reducing tobacco product sales and preventing the onset of its use by this population. Specifically, the program seeks to improve compliance by tobacco retailers with the ATUPA.

Status and Accomplishments

The New York State Department of Taxation and Finance (DTF) reports the total number of registered tobacco retailers and vendors in New York State. A total of 19,880 tobacco retailers were registered as of June 2010. This represents a decline in the number of tobacco retailers of 10,495 (34%) from the highest reported number of retailers in 2000.

Number of DTF registered tobacco retailers and vendors in New York State

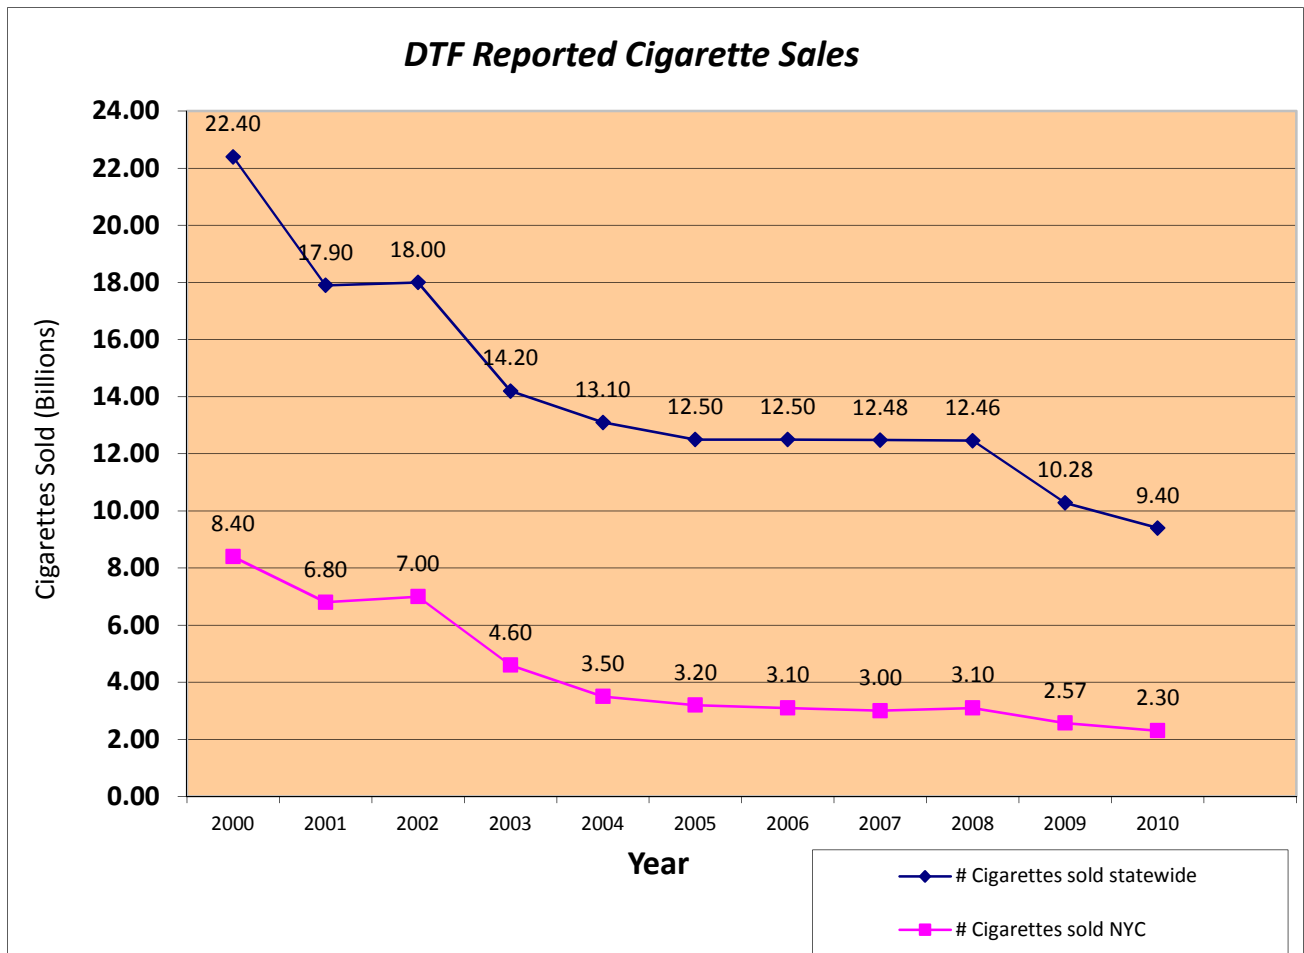

DTF reported number of registered vending machines

The total number of vending machines registered in New York State by DTF during 2010 was 807, this is unchanged from 2009 and down from 4,434 in 2000.

The Family Smoking Prevention and Tobacco Control Act (Tobacco Control Act) (Public Law 111-31; 123 Stat. 1776) was enacted on June 22, 2009, amending the Federal Food, Drug, and Cosmetic Act (FFDCA) and providing the U.S. Food & Drug Administration (FDA) with the authority to regulate tobacco products. Effective June 22, 2010 vending machines are only permitted in facilities where no one younger than 18 years of age is present or permitted to enter at any time.

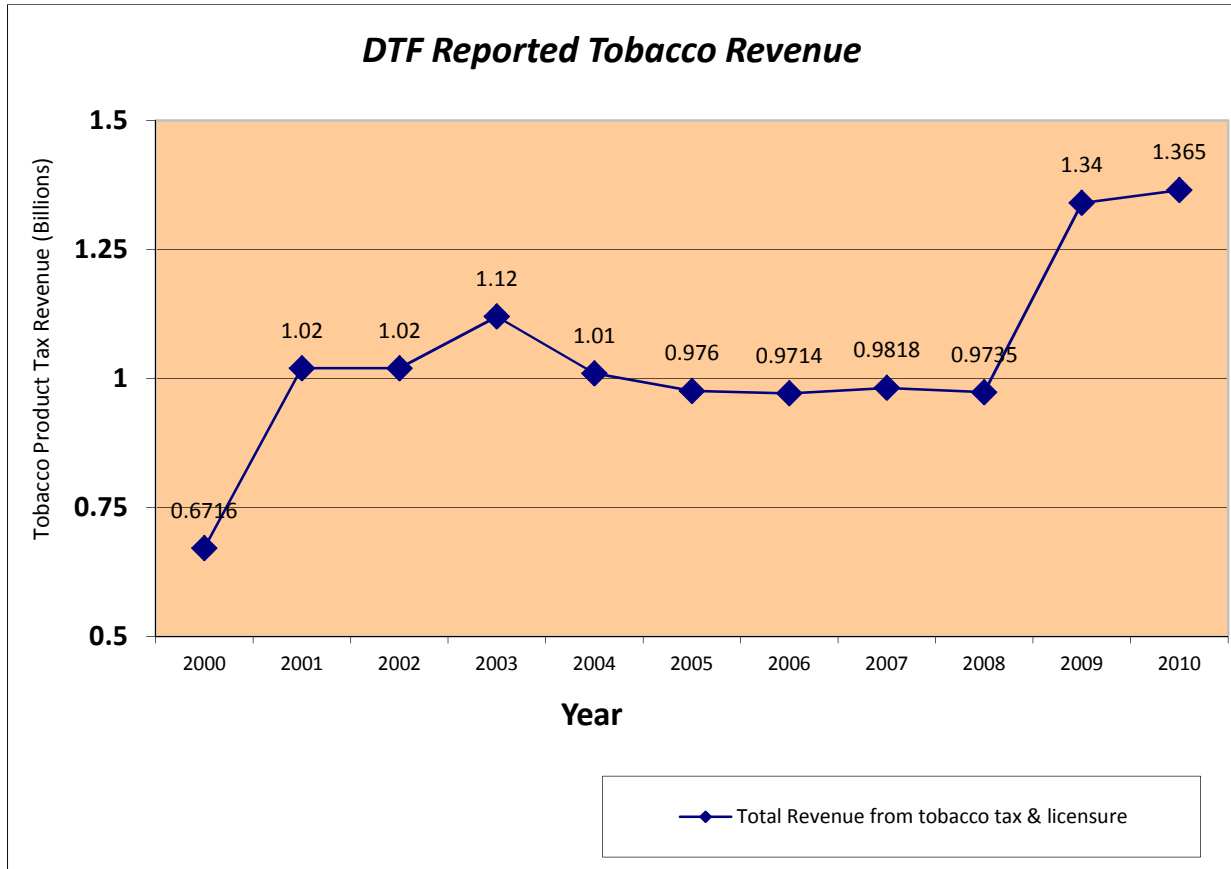

DTF reported number of cigarettes sold in New York State

Approximately 9.4 billion cigarettes were sold in New York State for the fiscal year ending March 31, 2010. Of this number, approximately 2.3 billion were sold in New York City.

DTF reported tax revenue collected in New York State

Excluding local sales tax, the tax revenue collected by the DTF from the sale of cigarettes and tobacco products for the fiscal year ending March 31, 2010, totaled approximately \$1.365 billion and resulted from retailer licensure, vending machine registrations and the excise tax. Retail vendor licensure and vending machines yielded \$12.7 million in 2009-2010. The excise tax on cigarettes yielded \$1.288 billion, and other tobacco products yielded \$63.6 million.

The NYSDOH reported the following information.

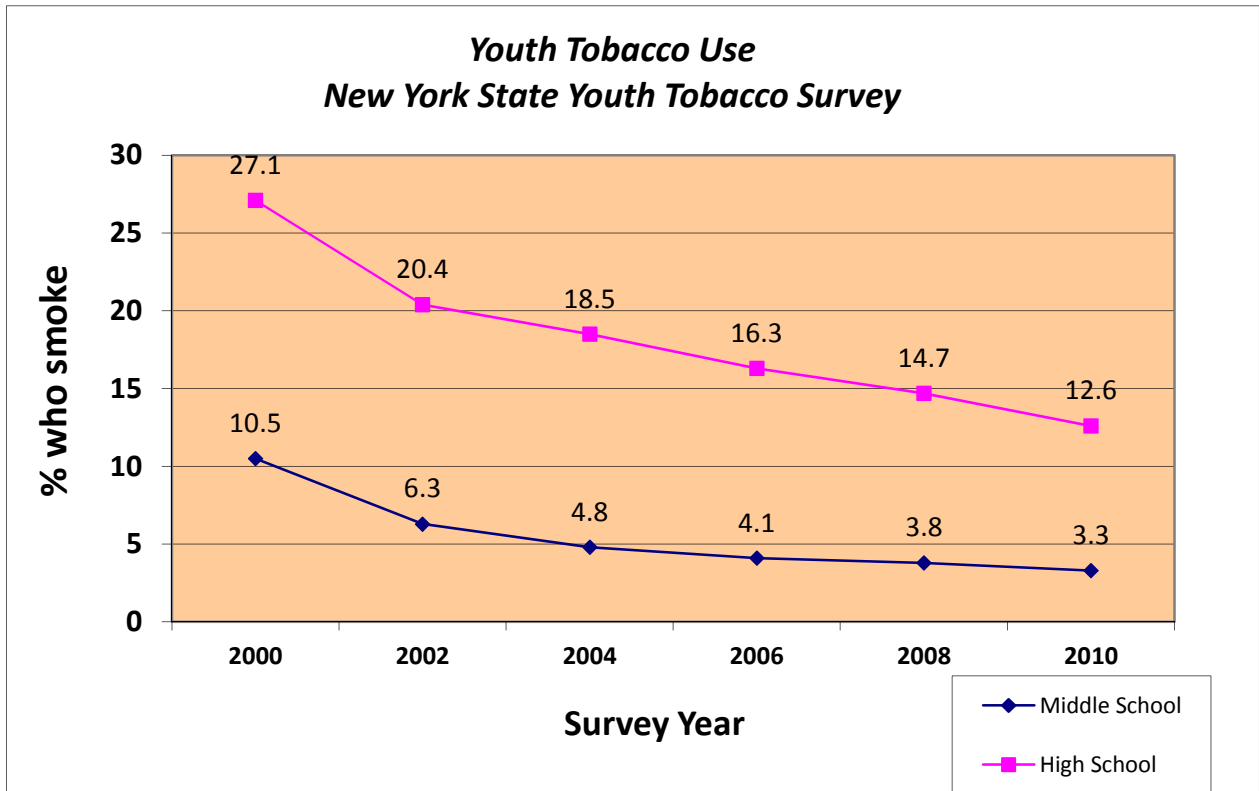

- a. The number and types of compliance checks conducted in New York State: State and local enforcement officers conducted 33,464 compliance inspections during the thirteenth program year (October 1, 2009 – September 30, 2010). Of these, 25,032 were compliance checks where underage youth attempt over-the-counter purchases of tobacco products. Additional visits were made to determine compliance with Department of Taxation and Finance registration and/or NYSDOH signage requirements, to educate operators of the Public Health Law requirements, to verify vending machine supervision and location compliance, and/or to investigate complaints. Appendix 1 reflects a county-by-county listing of compliance investigations. Appendix 1A reflects a county-by-county 5 year summary of the sale to minor violation rate. Appendix 1B reflects the sale to minor violation rate by facility type.

- b. Number of complaints filed against registered tobacco retailers and vendors in New York State: Two hundred twenty-six complaints were filed against “registered” tobacco retailers. A total of 345 inspections were conducted in response to complaints received concerning sale to minor violations. Included in Appendix 1 is a county-by-county breakdown.

- c. The names and addresses of retailers and vendors reported by local enforcement officers to have paid fines or been penalized otherwise due to tobacco enforcement actions in New York State: During the 2009 – 2010 program year, state and local enforcement officers conducted 33,464 inspections of tobacco retailers to assess compliance with the State’s Public Health Law (Adolescent Tobacco Use Prevention Act). A total of 1,790 enforcement actions were taken for sales of tobacco products to minors and more than \$1.375 million in fines were assessed. The names of penalized tobacco retailers and vendors are listed by county in Appendix 2.

- d. The number of tobacco users and trends among minors in New York State: New York State conducts a Youth Tobacco Survey every other year to develop statewide estimates of tobacco use and related behaviors and attitudes for students from grades 6 to 12. The survey includes questions about tobacco use, exposure to environmental tobacco smoke, minors' ability to purchase or otherwise obtain tobacco products, knowledge and attitudes about tobacco and familiarity with pro- and anti-tobacco media messages. A total of 83 public, parochial or other private schools agreed to participate in the survey with a total of 9,503 students completing the survey in 2010. The results of the survey are applicable to New York State youth attending middle school or high school. There was a significant downward trend in current use of cigarettes

by high school and middle school students in each year from 200 through 2010. Additional data from the 2010 National Youth Tobacco Survey are found in Appendix 4.

- e. Funding disbursement: Appendix 5 lists the funding amounts distributed to 35 county health departments, the New York City Department of Health and Mental Hygiene and the New York City Department of Consumer Affairs to conduct, as enforcement officers, youth access tobacco enforcement activities. As guided by Section 1399-hh of the Public Health Law, funding was based on the number of retail facilities registered with the Department of Taxation and Finance to sell tobacco products within the local health department’s jurisdiction. Staff from nine State Health Department district offices conducted compliance checks in the 22 upstate counties that do not or did not elect to conduct enforcement activities in their county.

- f. Enforcement: One hundred thirty-eight tobacco vendors were reported to the Department of Taxation and Finance for lack of required registration to sell tobacco products. As a result, the Department of Taxation and Finance verifies the status and notifies unregistered vendors of the need to pay a fee to gain a registration and fine them up to \$3,500 for non-compliance.

During compliance checks, under-aged youth purchased tobacco 1,476 times. By the close of the program year, health officers had assessed fines totaling \$1,375,500 against tobacco vendors for sales of tobacco products to underage youth and finalized enforcement against 1,750 of the vendors. Fines collected for the year totaled \$1,228,567, with unfinished enforcement actions carrying over into the fourteenth program year.

During the reporting period, a total of 235 tobacco retailers' registrations to sell tobacco products were suspended by the Department of Taxation and Finance as a result of multiple enforcement actions for selling tobacco to underage youth. Of this total, 231 were suspended for six months, one for one year and three permanently. There were also 68 lottery agent licenses suspended for six months for multiple sales to minors.

g. Impact of 13 program years:

	FFY 1998	FFY 1999	FFY 2000	FFY 2001	FFY 2002	FFY 2003	FFY 2004
Number of checks to assure compliance regarding prohibiting sale of tobacco to minors	20,942	19,146	24,156	27,190	27,010	30,074	29,951
Number of checks to assure compliance regarding other regulatory requirements *	6,997	5,117	8,701	19,781**	13,268**	13,451**	12,398**
Number of tobacco sales to minors	NA	NA	3,115	2,884	2,819	3,391	3,350
Vendor non-compliance rate (based on sales to minors)	NA	NA	13%	11%	10.4%	11%	11%
Number of enforcement actions taken for ATUPA violations	4,046	3,270	2,919	2,496	2,723	2,192	3,172
Fines Assessed	\$1,001,800	\$915,925	\$819,410	\$1,842,260	\$2,171,469	\$3,060,435	\$3,978,513
Fines Collected	\$768,410	\$633,215	\$950,100	\$1,279,437	\$1,990,176	\$2,389,074	\$2,804,721
Number of suspended tobacco registrations	2	4	22	23	82	20	74

Vendor non-compliance rate (based on sales to minors)	13%	10%	7.6%	8.3%	7.0%	5.9%	9.8%¹
Number of enforcement actions taken for ATUPA violations	3,590	3,210	2,302	2,639	1,790	1,750	36,099
Fines Assessed	\$3,641,085	\$2,598,600	\$1,646,600	\$1,912,270	\$1,191,710	\$1,375,500	\$26,155,577
Fines Collected	\$2,446,837	\$2,211,547	\$1,504,215	\$1,365,359	\$1,256,019	\$1,228,567	\$20,827,677
Number of suspended tobacco registrations	152	475	608	256	412	235	2,441
Number of suspended lottery licenses	38	147	149	86	91	68	631
Number of unregistered vendors reported to the Department of Taxation and Finance	105	220	228	426	201	138	8,988

¹ Total for years 3 through 13, data not collected in the first two program years.

* Other Regulatory Requirements include proper Department of Taxation and Finance registration compliance, posting required signs, educating operators of the Public Health Law requirements, verifying vending machine supervision and proper location, attempting compliance checks and/or investigation of complaints.

** Includes compliance checks conducted by adult inspectors for out of the package cigarettes, self-service restrictions, bidis, gutka, etc.

New York State Tobacco Vendor Non-Compliance Rate

* Vendor non-compliance rate for FFY 1998 & 1999 is based on the number of enforcement actions for illegal sales to minors; the 2000-2010 rate is based on the actual number of sales to minors.

The New York State Department of State reported the following information:

- a. Number of fires and related injuries and deaths caused or believed to be caused by tobacco products: The New York State Department of State's Fire Reporting System data for the period of October 1, 2008 – September 30, 2009, identified 1,845 fires classified as being caused by abandoned or discarded cigarettes. There were ten deaths and 49 injuries to civilians resulting from fires caused by tobacco products. One hundred and eight firefighters were also injured. Appendix 6 includes a breakdown of tobacco-related fire statistics by county.

The New York State Education Department reported the following information:

- a. A survey of attitudes and behaviors regarding tobacco use among minors: During 1999, 2003, 2005, 2007 and again in 2009, the New York State Education Department conducted a CDC funded statewide "Youth Risk Behavior Survey" (YRBS) of students in New York State (including New York City) schools. The survey contains several questions on youth tobacco use and is conducted every two years. For each survey, a new sample of schools and students is selected; student participation is voluntary. In 1999, 3,312 ninth through twelfth grade students representing 97 schools participated. In 2003, 9,320 ninth through twelfth grade students representing 140 schools participated (the sample from the 2001 survey was not large enough to be compiled into weighted data). In 2005, 9,708 ninth through twelfth grade students representing 146 schools participated.). In 2007, 13,439 ninth through twelfth grade students representing 144 schools participated. In 2009, 14,870 ninth through twelfth grade students representing 144 schools participated. New York State data from the YRBS for 2003, 2005, 2007 and 2009 is included in Appendix 3.

Note: * 95% Confidence Interval

Bidis - a product containing tobacco that is wrapped in tamberni leaf (*diospyros melanoxylon*) or tendra leaf (*diospyros exculpra*).

Kreteks - a cigarette containing a blend of cloves and tobacco.

Hookah - a single or multi-stemmed water pipe for smoking.
