Fax: (518) 402-7609

This annual report of the New York State Department of Health (NYS DOH) Youth Access Tobacco Enforcement Program is prepared in accordance with Section 1399-kk of the Public Health Law and is submitted by the Commissioner of Health to the Governor and the Legislature.

## **ACKNOWLEDGEMENTS**

Special thanks go to the local health department enforcement officers, the New York City Department of Consumer Affairs and the youth who participated in the access compliance check surveillance program. For more than 10 years, these dedicated agencies and individuals have been the leaders in the state's effort to increase retailer compliance with the public health law in our communities.

Staff of the New York State Department of Health's Bureau of Community Environmental Health and Food Protection, Tobacco Enforcement Program prepared this report with data provided from the local enforcement officers, other state agencies and programs within the Department of Health.

The New York State Department of Health's Tobacco Control Program and the New York State Education Department supplied information regarding tobacco use and trends among minors. The State Department of Taxation and Finance provided registration and revenue data. The Department of State's Office of Fire Prevention and Control supplied data regarding fires.

## PREFACE

The purpose of New York's Adolescent Tobacco Use Prevention Act is to aid in reducing morbidity and mortality caused by tobacco use by reducing children's access to cigarettes and other tobacco products. It has been well documented that most smokers begin before they are 18 years old and half before they are 15. Many people who start smoking as youth find it nearly impossible to quit during their lifetime. For more than 10 years, state and local enforcement officials have been increasingly successful at reducing youth access to tobacco products and improving retailer compliance with the Adolescent Tobacco Use Prevention Act.

The Adolescent Tobacco Use Prevention Act requires retailers to obtain positive proof that the person buying cigarettes is over the age of 18. Retailers found in violation of this law are subject to fines, and loss of their tobacco registration and lottery license for repeated violations. The law also limits the location of vending machines and limits the venues in which free tobacco products can be distributed. These enforcement measures are aimed at making tobacco products less accessible to minors, and are a part of the State's \$85 million comprehensive anti-smoking program.

This Annual Report is prepared by the Tobacco Enforcement Program, located in the New York State Department of Health's Center for Environmental Health. The report covers the time period of October 1, 2006 – September 30, 2007, and includes the following information:

- Number of tobacco compliance checks that were conducted;
- Names and addresses of tobacco vendors who sold tobacco products to underage youth and were penalized;
- New York State Results of the 2006 National Youth Tobacco Survey;
- Tobacco sales data from the State Department of Taxation and Finance; and
- Tobacco-related fire injury data from the Department of State's Fire Reporting System.

During the 2006 – 2007 program year, state and local enforcement officers conducted 37,814 inspections of tobacco retailers to assess compliance with the State's Public Health Law (Adolescent Tobacco use Prevention Act). Of these inspections, more than 28,000 included unannounced compliance checks where minors attempted to purchase tobacco under the direct supervision of the enforcement official. Nearly 10,000 additional visits were made to determine compliance with Department of Health signage requirements and Department of Taxation and Finance registration requirements, to educate retailers about the Public Health Law, to verify vending machine supervision and location compliance, and/or to investigate complaints. Three thousand two hundred ten enforcement actions were taken for sales of tobacco products to minors and more than \$1.6 million in fines were assessed.

In the last 10 years (1997-2007) state grants totaling more than \$35 million were awarded to local enforcement officials to implement the Tobacco Enforcement Program, which resulted in a decline in the rate of non-compliance by retailers from 19 percent to 7.6 percent. From 1997 to 2007, more than \$21.6 million in fines have been levied against 29,920 retailers for selling tobacco to minors. The Department of Taxation and Finance has suspended the registrations of 1,462 tobacco retailers as a result of multiple enforcement actions for selling tobacco to underage youth. There were also 386 lottery agent licenses suspended for six months for multiple sales to minors. Of the 375,968 compliance inspections that have taken place during the 10 years, 263,050 were conducted with the assistance of minors attempting to purchase tobacco products.

Questions concerning this report should be referred to the New York State Department of Health's Bureau of Community Environmental Health and Food Protection, Tobacco Enforcement Program at (518) 402-7600 or 1-800-458-1158, extension 2-7600.

**New York State Department of Health (NYSDOH)**

**Youth Access Tobacco Enforcement Program Annual Report**  
**October 1, 2006 – September 30, 2007**

**Program Overview**

In September 2007, the New York State Department of Health completed its tenth program year of youth tobacco access enforcement statewide. As part of the State's continued commitment to preventing youth access to tobacco, \$5.8 million was distributed to local enforcement officers to determine retail tobacco vendor compliance with Article 13-F of the Public Health Law, also known as the Adolescent Tobacco Use Prevention Act (ATUPA).

The ATUPA enforcement program is part of the State's anti-smoking and tobacco control initiative, the New York Tobacco Control Program (NY TCP). The NY TCP is funded annually through a state appropriation of \$85.485 million and a grant from the federal Centers for Disease Control and Prevention (CDC) of \$1.87 million. The NY TCP targets tobacco use by promoting cessation, reducing its social acceptability, preventing initiation, addressing disproportionately high rates by specific population groups, and eliminating exposure to secondhand smoke. The NY TCP uses a multi-pronged strategic approach to reduce tobacco use in the population and seeks to impact the population as a whole through:

**Statewide and community action** to change the community environment to support the tobacco-free norm, change community attitudes about tobacco, and de-normalize tobacco use. A key outcome of the NY TCP's community mobilization strategy is the adoption and effective implementation of local and statewide policies that permanently change society's acceptance of tobacco use.

**Health communication** to increase awareness of the dangers of tobacco use and secondhand smoke and motivate tobacco users to stop, to expose tobacco industry propaganda and deglamorize tobacco use; and educate community members and decision makers about tobacco control. A key outcome of the NY TCP's health communication strategy is better educated community members and decision makers who will support effective tobacco control policies and take personal action toward a tobacco-free New York.

**Cessation** interventions to establish and maintain community, governmental and health care delivery systems that promote cessation, increase access to and delivery of evidence-based cessation services, and motivate individual tobacco users to quit successfully. Key outcomes of the NY TCP's cessation interventions are provision of guideline concordant tobacco dependence treatment by the health care sector and adoption of policies that motivate smokers and other tobacco users to quit.

The NY TCP is supported by surveillance and evaluation activities to monitor program progress and impact and by program administration to build and maintain an effective tobacco control infrastructure, provide technical assistance and guidance, and manage the effective and efficient investment of state tobacco control funding. The NY TCP strives to contribute to the science of tobacco control through surveillance and evaluation of program initiatives and dissemination of program findings.

### **NY TCP Community Action Areas**

The NY TCP is implemented through statewide and community programs directed and managed by staff at the NYSDOH. Community action areas include: community partnerships for tobacco control, youth action programs, and tobacco-free school policy programs.

***Community Partnerships for Tobacco Control.*** Community partnerships work with local governments and decision makers, local businesses and employers (including tobacco retailers), community organizations, health care institutions and providers, and schools and community groups to address tobacco company advertising, sponsorship and promotion; implement effective tobacco-free policies in the outdoor environment; change public opinion about tobacco and tobacco use; and promote access to evidence-based cessation services. Community partnerships engage local stakeholders and decision makers, educate community leaders and the public, and mobilize the community to strengthen tobacco-related policies to restrict the tobacco company presence in the community, reduce the use and availability of tobacco products in the community, and limit opportunities for exposure to secondhand smoke. Community partnerships take a policy advocacy approach to creating communities that support and reinforce the tobacco free norm and dismantling the community policies and practices that promote and support tobacco use.

***Youth Action Programs.*** Youth Action Programs engage youth leaders to challenge and change community norms regarding tobacco use through civic action. These programs engage middle- and high-school-aged youth in actions aimed at de-glamorizing and de-normalizing tobacco use in their communities and exposing the manipulative and deceptive marketing practices of the tobacco industry. Youth action programs use community education linked to social action, media advocacy, community events, and advocacy with decision-makers to obtain pro-tobacco control policies and resolutions at the local, state and national levels.

***Tobacco Free School Policy Programs.*** These organizations provide resources and support to schools and school districts seeking to develop, implement, and enforce effective tobacco-free school policies. Schools play a key role in creating and supporting healthful attitudes and behaviors among students, their families and members of the community. By creating an environment that supports and promotes tobacco-free values and behaviors, schools can be leaders in the fight for tobacco-free lifestyles for children and adults. Contractors funded to implement tobacco-free school policy programs work to promote and facilitate the adoption and implementation of effective tobacco-free policies.

### **Public Health Communication**

Public health communications focused on tobacco include paid placement of advertising on television, radio, print, Internet and other venues, with the goals of educating New Yorkers about the health risks of tobacco use and the dangers of secondhand smoke, motivating tobacco users to stop, and promoting use of the New York State Smokers' Quitline; coverage and discussion of tobacco control issues and events in the news media; and strategic use of both paid and earned media to advocate for tobacco control policies and practices.

### **Cessation Interventions**

The most effective interventions to support cessation are raising the price of tobacco products, banning smoking from the work place and public places, and running emotionally evocative paid media campaigns that make a compelling case for quitting.

In addition to these environmental interventions, the NY TCP

- Provides support to health care organizations and providers to establish the policies, practices and procedures to deliver effective tobacco dependence treatment through the work of 19 contracted tobacco cessation centers

- Offers telephonic and web-based information, resources, coaching and a “starter kit” of nicotine medication to help smokers quit through the New York State Smokers Quitline, operated under contract by the Roswell Park Cancer Institute;
- Maintains a nicotine medication distribution service, providing free over-the-counter nicotine products to smokers via the state Quitline, through local programs administered by local health departments and the cessation centers, and for patients and clients in substance abuse treatment programs
- Provides training to substance abuse treatment counselors and administrators on integrating tobacco dependence treatment and tobacco free policies into the substance abuse treatment setting. Training is offered by the Professional Development Program of the SUNY Research Foundation under contract with the Department of Health.

## Program Purpose

The goal of the program is to lower the prevalence of tobacco use among youths by reducing tobacco product sales and preventing the onset of its use by this population. Specifically, the program seeks to improve compliance by tobacco retailers with the ATUPA.

## Status and Accomplishments

This section lists accomplishments and status of the initiative, and information required by the Public Health Law.

The New York State Department of Taxation and Finance reported the following information.

- a. Total number of registered tobacco retailers and vendors: A total of 24,497 tobacco retailers were registered as of August 2007.
- b. Total number of vending machines registered: In 2007, there were 3,788 registered vending machines.
- c. Number of cigarettes sold in New York State: Approximately 12.48 billion cigarettes were sold in New York State for the fiscal year ending March 31, 2007; of this number, approximately 3.0 billion were sold in New York City.
- d. Tax revenue collected from the sale of tobacco products: Excluding state and local sales tax, the “tax revenue” the state collected from the sale of cigarettes and tobacco products for the fiscal year ending March 31, 2007 totaled approximately \$981.8 million, and resulted from licensure and excise tax.

Licensure:	retail vendors:	\$2.7 million
	vending machines:	\$94,700
Excise tax:	cigarettes:	\$937.5 million
	tobacco products:	\$44.3 million

The New York State Department of Health reported the following information.

- a. The number and type of compliance checks conducted: State and local enforcement officers conducted 37,814 compliance inspections during the ninth program year. Of these, 28,075 were compliance checks using underage youth to attempt over-the-counter purchases of tobacco products. Additional visits were made to determine compliance with Department of Taxation and Finance registration and/or Department of Health signage requirements, to educate operators of the Public Health Law requirements, to verify vending machine supervision and location compliance, and/or to investigate complaints. Appendix 1 reflects a county-by-county listing.
  
- b. Number of complaints filed against registered tobacco retailers and vendors: Ninety-two were filed against “registered” retailers. Appendix 1 lists a county-by-county breakdown.
  
- c. The names and addresses of retailers and vendors reported by local enforcement officers to have paid fines or been penalized otherwise due to tobacco enforcement actions: The names are listed by county in Appendix 2.
  
- d. The number of tobacco users and trends among minors: New York State conducts a Youth Tobacco Survey every other year to develop statewide estimates of tobacco use and related behaviors and attitudes for students from grades 6 to 12. The survey includes questions about tobacco use, exposure to environmental tobacco smoke, minors’ ability to purchase or otherwise obtain tobacco products, knowledge and attitudes about tobacco, and familiarity with pro- and anti-tobacco media messages. A total of 88 public, parochial or other private schools agreed to participate in the survey with a total of 7,306 students completing the survey in the spring of 2006. The results of the survey are applicable to New York State youth attending middle school or high school. There was a significant downward trend in current use of cigarettes by high school students from 2000 (27.1%) to 2002 (20.4%) to 2004 (18.2%) to 2006 (16.3%), and for middle school students 2000 (10.5%) to 2002 (6.3%) to 2004 (4.8%) to 2006 (4.1%). Additional data for 2006 are found in Appendix 4.

- e. Funding disbursement: Appendix 5 lists the funding amounts distributed to 33 county health departments and the New York City Department of Health and Mental Hygiene to conduct, as enforcement officers, youth access tobacco enforcement activities. As guided by Section 1399-hh of the Public Health Law, funding was based on the number of retail facilities registered with the Department of Taxation and Finance to sell tobacco products within the local health department's jurisdiction. Staff from nine state health department district offices conducted compliance checks in the 23 upstate counties that are not or did not wish to be the enforcement officer.
  
- f. Enforcement: Two hundred twenty-eight tobacco vendors were reported to the Department of Taxation and Finance for lack of required registration to sell tobacco products. As a result, the Department of Taxation and Finance will verify the status and notify unregistered vendors of the need to pay a fee to gain a registration and fine them up to \$3,500 for non-compliance.

During compliance checks, under-aged youth purchased tobacco 2,120 times. By the close of the program year, health officers had assessed fines totaling \$1,646,600 against these tobacco vendors for sales of tobacco products to underage youth and finalized enforcement against 2,302 of the vendors. Fines collected for the year totaled \$1,504,215, with unfinished enforcement actions carrying over into the eleventh program year.

During the reporting period, a total of 608 tobacco retailer's registrations to sell tobacco products were suspended by the Department of Taxation and Finance as a result of multiple enforcement actions for selling tobacco to underage youth. Of this total, 603 were suspended for six months, four for one year and one permanently revoked. There were also 149 lottery agent licenses suspended for six months for multiple sales to minors.

g. Impact of ten program years:

	October 1997 through September 1998	October 1998 through September 1999	October 1999 through September 2000	October 2000 through September 2001	October 2001 through September 2002	October 2002 through September 2003	October 2003 through September 2004	October 2004 through September 2005	October 2005 through September 2006	October 2006 through September 2007	10 Year TOTAL
Number of checks to assure compliance regarding prohibiting sale of tobacco to minors	20,942	19,146	24,156	27,190	27,010	30,074	29,951	26,616	29,890	28,075	263,050
Number of checks to assure compliance regarding other regulatory requirements *	6,997	5,117	8,701	19,781**	13,268**	13,451**	12,398**	12,906**	10,560**	9,739**	112,918
Number of tobacco sales to minors	NA	NA	3,115	2,884	2,819	3391	3,350	3,457	2,949	2,120	NA
Vendor non-compliance rate (based on sales to minors)	NA	NA	13%	11%	10.4%	11%	11%	13%	10%	7.6%	NA
Number of enforcement actions taken for ATUPA violations	4,046	3,270	2,919	2,496	2,723	2,192	3,172	3,590	3,210	2,302	29,920
Vendor non-compliance rate (based on enforcement actions for illegal sales)	19%	17%									
Fines Assessed	\$1,001,800	\$915,925	\$819,410	\$1,842,260	\$2,171,469	\$3,060,435	\$3,978,513	\$3,641,085	\$2,598,600	\$1,646,600	\$21,676,097
Fines Collected	\$768,410	\$633,215	\$950,100	\$1,279,437	\$1,990,176	\$2,389,074	\$2,804,721	\$2,446,837	\$2,211,547	\$1,504,215	\$16,977,732
Number of suspended tobacco registrations	2	4	22	23	82	20	74	152	475	608	1,462
Number of suspended lottery licenses				3	25	4	20	38	147	149	386
Number of unregistered vendors reported to the Department of Taxation and Finance	3,600	930	1,338	738	454	410	200	105	220	228	8,223

\* Other Regulatory Requirements include proper Department of Taxation and Finance registration compliance, posting required signs, educating operators of the Public Health Law requirements, verifying vending machine supervision and proper location, attempting compliance checks and/or investigation of complaints.

\*\* Includes compliance checks conducted by adult inspectors for out of the package cigarettes, self-service restrictions, bidis, gutka, etc.

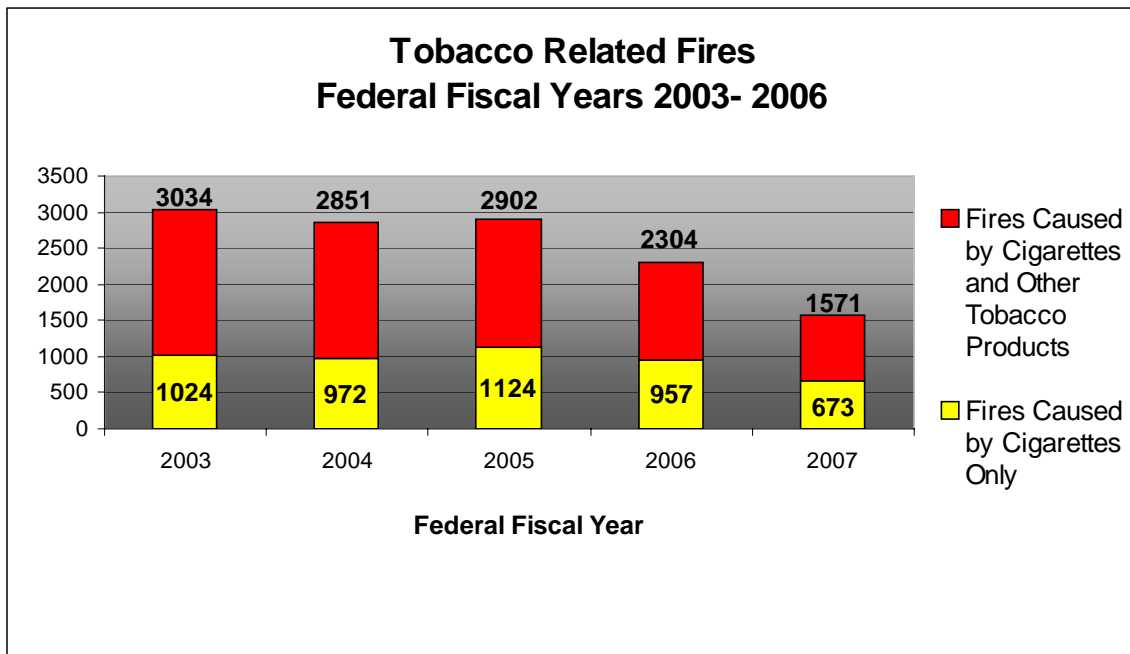

The New York State Department of State reported the following information.

- a. Number of fires and related injuries and deaths caused or believed to be caused by tobacco products:

The New York State Department of State’s Fire Reporting System data for the period of October 1, 2006 – September 30, 2007, identified 673 fires classified as being caused by abandoned or discarded cigarettes. There were 4 deaths and 19 injuries to civilians resulting from fires caused by tobacco products. Seven firefighters were also injured. Appendix 6 includes a breakdown of this information by county.

- b. Fire Safety Standards for Cigarettes:

New York State’s fire safety standard for cigarettes is designed to reduce the risk of fires caused by cigarettes. Effective June 28, 2004, all cigarettes sold in New York State must be low ignition strength, making them less likely to cause fires if left unattended. The Department of State reports a reduction in fires caused by cigarettes from 1,124 in FFY 2005 to 673 in FFY 2007. Questions regarding the Cigarette Fire Safety Program may be directed to the New York State Department of State, Bureau of Fire Prevention and Control at (518) 474-6746.

The New York State Education Department reported the following information.

- a. A survey of attitudes and behaviors regarding tobacco use among minors: During 1999, 2003, 2005 and again in 2007, the New York State Education Department conducted a Centers for Disease Control and Prevention (CDC) funded statewide "Youth Risk Behavior Survey" (YRBS) of students in New York State (including New York City) schools. The survey contains several questions on youth tobacco use and is conducted every 2 years. For each survey, a new sample of schools and students is selected. Student participation is voluntary. In 1999, 3,312 9<sup>th</sup> through 12<sup>th</sup> grade students representing 97 schools participated. In 2003, 9,320 9<sup>th</sup> through 12<sup>th</sup> grade students representing 140 schools participated (the sample from the 2001 survey was not large enough to be compiled into weighted data). In 2005, 9,708 9<sup>th</sup> through 12<sup>th</sup> grade students representing 146 schools participated. ). In 2007, 13,439 9<sup>th</sup> through 12<sup>th</sup> grade students representing 144 schools participated. Data for 2003, 2005 and 2007 is included in Appendix 3.
