Q2: Title of your recommendation	Comprehensive Sexuality Education
Q3: Please provide a description of your proposed recommendation	
Ensure comprehensive, medically accurate sexuality education to all junior and senior high school students in the state of New York. Programs should have evidence of behavior change effectiveness and should include hands-on demonstration and practice of condom use skills to ensure that youth are capable of properly using condoms in order to prevent HIV transmission.	
Q4: For which goal outlined in the Governor's plan to end the epidemic in New York State does this recommendation apply? (Select all that apply)	Unknown
Q5: This recommendation should be considered by the following Ending the Epidemic Task Force Committee (Select all that apply)	Prevention Committee: Develop recommendations for ensuring the effective implementation of biomedical advances in the prevention of HIV, (such as the use of Truvada as pre-exposure prophylaxis (PrEP)); for ensuring access for those most in need to keep them negative; and for expansion of syringe exchange, expanded partner services, and streamlined HIV testing by further implementing the universal offer of HIV testing in primary care, among others. The Committee will focus on continuing innovative and comprehensive prevention and harm reduction services targeted at key high risk populations, as well as grant-funded services that engage in both secondary and primary prevention.
Q6: Does this recommendation require a change to an existing policy or program, or the creation of a new policy or program?	New policy, Other (please specify) Sex education requirement for NYS schools. Also will require changes to policies re: condom demonstrations.
Q7: Would implementation of this recommendation be permitted under current laws or would a statutory change be required?	Unknown

Ending the Epidemic Task Force Recommendation Form

Q8: Is this recommendation something that could feasibly be implemented in the short-term (within the next year) or long-term (within the next three to six years)?

Within the next year

Q9: What are the perceived benefits of implementing this recommendation?

Youth will have accurate, up to date information on how HIV is transmitted and how to reduce transmission.

Q10: Are there any concerns with implementing this recommendation that should be considered?

Respondent skipped this question

Q11: What is the estimated cost of implementing this recommendation and how was this estimate calculated?

Respondent skipped this question

Q12: What is the estimated return on investment (ROI) for this recommendation and how was the ROI calculated?

Respondent skipped this question

Q13: Who are the key individuals/stakeholders who would benefit from this recommendation?

Respondent skipped this question

Q14: Are there suggested measures to accompany this recommendation that would assist in monitoring its impact?

Respondent skipped this question

Q15: This recommendation was submitted by one of the following

Advocate
