

**US EPA and NYSDEC registered disinfectant products effective against Influenza A –
Sorted by EPA Registration Number**

The registration status of products can change over time, so please verify NYS product registration by checking the Cornell New York State Pesticide Product, Ingredient, and Manufacturer System (PIMS) website at: <http://magritte.psur.cornell.edu/pims/>. You should also verify that the product is labeled for the setting (e.g., household, school, institutional) and the surface type (e.g., hard non-porous surface, countertop, medical equipment) that you intend on disinfecting.

Product Name	EPA Registration Number
