Long Term Care Planning Project Meeting 4
Long Term Care Workforce
Discussion Questions

1. What is the perceived need for the long term care workforce by county or region in the next 3, 5, and 10 years and what is New York's capacity to meet that need?

2. What are the statutory, regulatory and/or policy barriers or opportunities that affect the long term care workforce?

    a. For example, how has the Nurse Practice Act, the creation of Advanced Home Health Aides, or technology created barriers or opportunities for workforce development?

3. How does data collection need to be developed and/or enhanced to support the long term care workforce?

4. What are examples of successful workforce development strategies that can be used to address workforce challenges?

5. What actions can New York take to enhance and/or support the long term care workforce (monetary and non-monetary)?
