

New York State Medicaid Drug Utilization Review Board Meeting Agenda

The Drug Utilization Review (DUR) Board will meet on April 27, 2017, from 9:00 a.m. to 4:00 p.m., Meeting Room 6, Concourse, Empire State Plaza, Albany, New York

Agenda Items

A. Preferred Drug Program (PDP)

The DUR Board will review therapeutic classes listed below, as they pertain to the PDP.

- The DUR Board will review clinical and financial information, to recommend preferred and non-preferred drugs.
- For therapeutic classes currently subject to the PDP*, the DUR Board will only consider clinical information which is new since the previous review of the therapeutic class and then consider financial information.

New clinical information may include a new drug or drug product information, new indications, new safety information or new published clinical trials (comparative evidence is preferred, or placebo controlled when no head-to-head trials are available). Information in abstract form alone, posters, or unpublished data are poor quality evidence for the purpose of re-review and submission is discouraged.

- Those wishing to submit new clinical information must do so in an electronic format by April 12, 2017 or the DUR Board may not have ample time to review the information.

* The current preferred and non-preferred status of drugs subject to the Preferred Drug List (PDL) may be viewed at
