

Using the Ambulatory Surgery Rate Codes in APGs

General Information

The billing guidance below, relative to what rate code is the appropriate code to use when billing for an APG visit (or episode), applies only to those providers to which both clinic and ambulatory surgery rate codes have been assigned. If a provider only has clinic (and possibly ED) rate codes available, then they may bill anything not done in the ED to a clinic rate code and this policy guidance does not apply. If a provider only has ambulatory surgery rate codes available, then they may bill anything not done in the ED to an ambulatory surgery rate code and this policy guidance does not apply.

Emergency Room - This policy does not apply to procedures performed in the emergency room. Any procedure performed in the emergency department must be billed using the APG emergency department rate code. Additionally, the policy described here does not obviate the need for DOH certification prior to performing those ambulatory surgery procedures that require certification. If a patient is initially seen in the hospital emergency room and the visit ultimately results in the provision of a same-day ambulatory surgery service (as defined herein) outside of the emergency room, the hospital should bill the visit under an ambulatory surgery rate code.

For Dates of Service 12/1/2008-6/29/2010

Effective December 1, 2008, an APG visit (or episode) may be billed against an ambulatory surgery rate code if the visit includes at least one procedure from the Ambulatory Surgery Procedures List (see next tab). The APG Ambulatory Surgery Procedures List will not be regularly updated by DOH because it will be eliminated on July 1, 2010 (see below), however any "replacement codes" for codes on the published list will be considered to be on the list.

For Dates of Service on or After 7/1/2010

Effective July 1, 2010, this policy will be further modified as follows. If a visit is provided in an operating room, an ambulatory surgery rate code must be used on the claim. If a visit is provided to a patient under general anesthesia or intravenous sedation, the visit may be billed against the ambulatory surgery rate code (if the provider/location has been assigned the ambulatory surgery base rate). All other visits (excluding ED visits – see above) must be billed against a clinic rate code. Again, this policy does not mandate the setting in which a procedure may be performed; only the rate code to be used for purposes of claiming.
