MIX Update

Update for the all-PPS session in Albany on February 27

February 2015

We are refocusing development of the MIX to ensure it is positioned to effectively support PPS implementation efforts across the State

MIX administration team (DOH & DST)

Statewide applications for the MIX

- Creation of a space for DSRIP leadership
- Focus on issues common to all PPSs
- Leverage the MIX for statewide communications and planning discussion
- Future opportunities include learning collaboratives, breakthrough sessions and leadership academy applications

Regional applications for the MIX

- Creation of multiple spaces for different groups on the MIX
- Focus on issues specific to a particular PPS or set of PPSs
- Leverage the MIX for regional communications and planning discussion
- Work with each PPS to identify specific group opportunities

JOIN AT WWW.NY-MIX.ORG TODAY!

There are several ways the MIX will add value to your PPS today and in the future

1. Private PPS Leads Group **LIVE NOW!**

- A group that includes leaders from every PPS, the DOH and the DSRIP Support Team
- Use this group to stay up to date on developments, events and updates
- Discuss issues relevant to all PPSs – such as [the agenda for our next PPS session](#)
- [Share best practices](#) in planning and implementation

2. Private PPS Groups **LIVE NOW!**

- Create a space specifically tailored to your PPS or to a group of PPSs linked by a common initiative
- The Hudson Region DSRIP Public Health Council (WCMC, Refuah and Montefiore PPSs) have launched the first such group
- Contact the DST to begin the process for your PPS today

3. Supporting state-wide training and development **COMING SOON!**

- The MIX will look for ways to support the many opportunities for PPSs to collaborate and learn, including learning collaboratives, the leadership academy and breakthrough sessions
