EHR Incentive Program Background

Legislation

2009

- HITECH Act

2010

- Stage 1 Final Rule

2012

- Stage 2 Final Rule

2014

- CEHRT Flexibility Final Rule

2015

- Stage 3 and Modifications to Meaningful Use in 2015 through 2017 Final Rule

What is Meaningful Use (MU)?

Meaningful Use means providers need to show they are using certified EHR technology in ways that can be measured significantly in quality and in quantity.

Achieving Meaningful Use

- Use certified EHR technology in a meaningful manner
- Use certified EHR technology for electronic exchange of health information to improve quality of health care
- Use certified EHR technology to submit clinical quality and other measures

Being a Meaningful User

- To be a meaningful user, 50% of the EP's total outpatient encounters must be at locations equipped with certified EHR technology (CEHRT).
- EPs must report on MU data from all locations equipped with CEHRT during the EHR reporting period.

EHR Reporting Period

The meaningful use EHR reporting period must be within the payment year, which is based on the calendar year.

Example: To attest for 2015, the EHR reporting period must be within calendar year 2015.

Overview of the CMS MU 2015-2017 Final Rule

2015-2017 MU Provisions

- Referred to as **Modified Stage 2**
- Effective December 15, 2015

Goals of Modified Stage 2

- 1 Align with Stage 3 to achieve overall goals of the EHR Incentive Programs
- 2 Synchronize reporting period, objectives and measures to reduce burden
- 3 Continue to support advanced use of health IT to improve outcomes for patients

Key points of Modified Stage 2

- Reduced EHR reporting period for 2015
- Removal of redundant, duplicative, and topped out measures
- Modified public health reporting requirements

Demonstrating Meaningful Use in 2015

EHR Certification

- No changes to EHR certification requirements for 2015
- Continue to use **2014 Edition** of certified EHR technology (CEHRT)

Optional: Upgrade to 2015 Edition but this is not required until 2018

EHR Reporting Period

For 2015 only, meaningful use has been reduced to a continuous **90-day EHR reporting period.**

2015 Meaningful Use

- ✓ Under the final rule, EPs must attest to **10 Meaningful Use objectives**:
 - 9 objectives (variation of threshold and activity)
 - 1 consolidated Public Health Reporting objective with multiple measures
- ✓ Additionally, EPs must report on **9 (of 64) Clinical Quality Measures**.

Objective 10: Public Health Reporting

Public Health Reporting

The EP, eligible hospital or CAH is in **active engagement** with a public health agency to submit electronic public health data from CEHRT except where prohibited and in accordance with applicable law and practice

Objective 10: Public Health Reporting

Public Health Reporting

For 2015, Stage 2 EPs must meet at least 2 measure:

Measure 1 Immunization Registry Reporting:

Active engagement with a public health agency to submit immunization data

Measure 2 Syndromic Surveillance Reporting:

Active engagement with a public health agency to submit syndromic surveillance data

Measure 3 Specialized Registry Reporting (can be counted up to two times):

Active engagement to submit data to a specialized registry

Public Health Reporting Objective: Active Engagement

- ✓ Option 1 – Completed Registration to Submit Data
 - The EP registered to submit data with the PHA within 60 days of the start of the EHR reporting period
 - The EP is awaiting an invitation to begin testing from the PHA
- ✓ Option 2 – Testing and Validation
 - The EP is in the process of testing and validation of the electronic submission of data
 - EPs must respond to requests from the PHA within 30 days; failure to respond twice within an EHR reporting period would result in not meeting the measure
- ✓ Option 3 – Production
 - The EP has completed testing and validation of the electronic submission and is electronically submitting production data to the PHA

Public Health Reporting with NYS Registries

Measures	NY City Report To	NY State (outside of NY City) Report To
Immunization Registry Reporting	Citywide Immunization Registry (CIR) NYC DOHMH	NYS Immunization Information System (NYSIIS) NYSDOH
Syndromic Surveillance Reporting	NYC Department of Health and Mental Hygiene NYC DOHMH	This option is not available for EPs outside of NYC
Specialized Registry Reporting	<p>Cancer Case Reporting New York State Cancer Registry (NYSCR) NYSDOH</p> <p>Notifiable Conditions NYC Department of Health and Mental Hygiene NYC DOHMH</p>	<p>Cancer Case Reporting New York State Cancer Registry (NYSCR) NYSDOH</p> <p>This option is not available for EPs outside of NYC</p>

Objective 10: Public Health Reporting

Public Health Reporting

Exclusions, first criterion by measure:

Immunization Registry Reporting:

- Does not administer any immunizations...

Syndromic Surveillance Reporting:

- Is not in a category of providers from which ambulatory syndromic surveillance data is collected...

Specialized Registry Reporting:

- Does not diagnose or treat any disease or condition associated with or collect relevant data that is required by a specialized registry...

Objective 10: Public Health Reporting

Public Health Reporting

Exclusions, second and third criteria for all measures (generalized):

- Operates in a jurisdiction for which no registry is capable of accepting the specific standards required to meet the CEHRT definition at the start of the EHR reporting period
- Operates in a jurisdiction where no registry has declared readiness to receive electronic data at the start of the EHR reporting period

Objective 10: Public Health Reporting

Public Health Reporting

Alternate Exclusions:

- Stage 2 EPs in 2015 may claim the alternate exclusion for measure 2 or 3
- A maximum of 2 alternate exclusions may be claimed
- EPs must meet active engagement or one of the standard exclusion criteria for the Immunization Registry Reporting Measure

Alternate Exclusion for the Public Health Reporting Objective

- CMS released [FAQ#12985](#) which clarifies that alternate exclusions to the measures in the public health reporting objective are available for providers in 2015 based on the changes to the public health reporting objective:
 - “we will allow providers to claim an alternate exclusion for a measure if they did not intend to attest to the equivalent prior menu objective”

Meeting the Public Health Reporting Objective

- An EP cannot count an exclusion as meeting the measure
- EPs scheduled for Stage 2 in 2015 must meet at least 2 Public Health Reporting Measures

OR

- If an EP cannot meet at least 2 Public Health Reporting Measures, the EP must meet 1 measure and be eligible to exclude from the other 2 measures

OR

- If an EP cannot meet any Public Health Reporting Measures, the EP must be eligible to exclude from all 3 measures

Meaningful Use Registration for Public Health (MURPH) System

Registration of Intent

Eligible Providers planning to meet any MU Public Health Reporting measures must register their intent to submit data to the appropriate Public Health registries.

Process Overview

- Registration is completed using the Meaningful Use Registration for Public Health (MURPH) System.
- The MURPH System is hosted on the NYSDOH Health Commerce System.
- An HCS ID is required to utilize system
- A third party user can submit a registration for one or multiple providers

Registration of Intent

Registration and MURPH System Details

- ✓ Registration must be completed before or within 60 days from the start of the provider's EHR Reporting Period.
- ✓ The registration must be updated for each Payment Year.
- ✓ The data captured in a provider's registration assists the registries in streamlining the onboarding process.
- ✓ A provider must register their intent even if submission of production data has already been achieved
- ✓ Providers excluded from all MU PH measures should not register
- ✓ The same system will be used by EPs and EHs in NYC and outside NYC
- ✓ Providers practicing in both the NYS and NYC jurisdiction should register twice to the respective registries

Obtaining an HCS User Account

Health Commerce System (HCS)

- The individual completing the registration will need a Health Commerce System (HCS) user account.
- Reference the HCS [Quick Reference Guide](#) for detailed instructions on obtaining an HCS user account.
