

# New York State Vaping-Related Illness Investigation

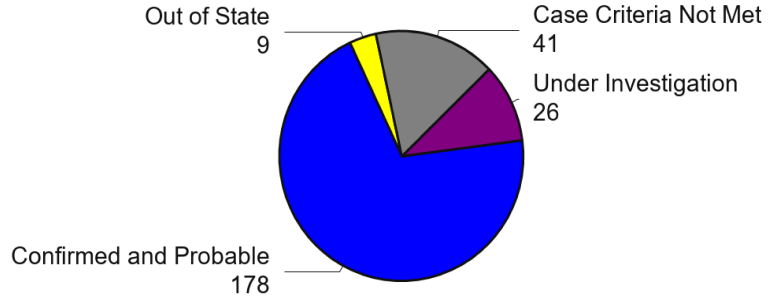

## Summary of case data reported to NYS Department of Health through March 31, 2020

### Reports of Vaping-Related Illness

\*Historic data may change due to lag in reporting

### Investigation Status

Total reported cases=254

**Confirmed and Probable Cases** are classified based upon the Centers for Disease Control and Prevention case definition. The definitions are meant for surveillance and not clinical diagnosis. Due to the ongoing and evolving nature of the outbreak, an individual case's classification status may change.

**Out of State Cases** reside out of state but were treated at hospitals in NYS.

**Case Criteria Not Met** Available information indicated that the case did not meet CDC's current case definition.

### Case Report by County

- Probable and Confirmed Cases**
- 40 and up
  - 20 to 39
  - 10 to 19
