22. REMARKS

**New York
6(a)(2)**

1905(a)(24) Personal Care Services

Such rates of payment will be further adjusted to reflect costs associated with the recruitment and retention of non-supervisory workers. For programs providing services in local social service districts which include a city with a population of over one million persons, such rate adjustments will be calculated by allocating the total dollars available for the applicable rate period to each individual provider proportionally based on total claimed hours of services for personal care services provided in the district to recipients of medical assistance. The allocated dollars will be included as a reimbursable cost add-on to the Medicaid rates of payment based on the Medicaid utilization data as adjudicated through the Medicaid Management Information System (MMIS), or any successor entity, utilizing the most recently available total claimed hours of Medicaid services data, as agreed to by New York State and the district.

For payment periods January 1, 2017, and thereafter, the Commissioner of Health will increase the rates of payment for services provided by all Personal Care providers in accordance with the wage chart shown below to address cost increases resulting from increases to the minimum wage in New York State. Final rates for providers can be found on the Department of Health website:
