RE: SPA #20-0060
Non-Institutional Services

Dear Ms. McKnight:

The State requests approval of the enclosed amendment #20-0060 to the Title XIX (Medicaid) State Plan for non-institutional services to be effective October 1, 2020 (Appendix I). This amendment is being submitted based on enacted legislation. A summary of the plan amendment is provided in Appendix II.

The State of New York reimburses these services through the use of rates that are consistent with and promote efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area as required by §1902(a)(30) of the Social Security Act and 42 CFR §447.204.

A copy of pertinent sections of enacted legislation is enclosed for your information (Appendix III). A copy of the public notice of this plan amendment, which was given in the New York State Register on April 1, 2020, is also enclosed for your information (Appendix IV). In addition, responses to the five standard funding questions are also enclosed (Appendix V).

If you have any questions regarding this State Plan Amendment submission, please do not hesitate to contact Regina Deyette, Medicaid State Plan Coordinator, Division of Finance and Rate Setting, Office of Health Insurance Programs at (518) 473-3658.

Sincerely,

Donna Frescatore
Medicaid Director
Office of Health Insurance Programs

Personal Emergency Response Services

Reimbursement for Personal Emergency Response Services (PERS) will be provided under the auspices of SDSS through contractual arrangements between the LDSS and the provider. Locally negotiated rates must include the costs for renting or leasing PERS equipment, the installation, maintenance, and the removal of PERS equipment from the clients home. A second rate must also be negotiated by the local district for a monthly monitoring service charge. These two rates must not exceed the local prevailing rate or the SDSS established cap.

For the period April 1, 1995 through March 31, 1996, the Department of Social Services in consultation with the Department of Health [shall] will establish a state share medical assistance cost savings target for each certified home health agency, which is to be achieved as a result of the agency's development and implementation of personal emergency response services and shared aide efficiency initiatives. The aggregate of such state share targets [shall] will not exceed fifteen million five hundred thousand dollars.

Services Provided To Medically Fragile Children

For purposes of this section, for the period beginning October 1, 2020 and thereafter, a medically fragile child [shall] will mean a child, up to twenty-~~one~~ three years of age, who is at risk of hospitalization or institutionalization for reasons that include but are not limited to the following: children who are technologically-dependent for life or health-sustaining functions; require complex medication regimen or medical interventions to maintain or improve their health status; or are in need of ongoing assessment or intervention to prevent serious deterioration of their health status or medical complications that place their life, health or development at risk. These children are capable of being cared for at home if provided with appropriate home care services including but not limited to continuous nursing services.

For the period beginning January 1, 2007 and thereafter, rates of payment for continuous nursing services for medically fragile children provided by a certified home health agency, or by registered nurses or licensed practical nurses who are independent providers, [shall] will be established to ensure the availability of such services, and [shall] will be established at a rate that is thirty percent higher than the provider's current rate for private duty nursing services. A certified home health agency that receives such rates for continuous nursing services for medically fragile children [shall] will use such enhanced rates to increase payments to registered nurses and licensed practical nurses who provide these services. All government and non-government owned or operated providers are eligible for this adjustment pursuant to the same uniformly applied methodology.

For the period beginning October 1, 2020, providers who enroll in the medically fragile children private duty nursing provider directory will receive an enhanced rate of fifteen percent effective October 1, 2020; thirty percent effective April 1, 2021; and forty-five percent effective April 1, 2022.

Nonprescription Drugs

Reimbursement is the lowest of:

- (1) the usual and customary price charged to the general public;
- (2) the price established by the Commissioner of Health as shown on the NYS List of Medicaid Reimbursable Drugs for that generic category and strength in the package size nearest to that ordered; and,
- (3) Acquisition cost plus dispensing fee.

Private Duty Nursing

[Fees determined by local districts and reviewed by the Department of Social Services.]
For the period beginning October 1, 2020 and thereafter, fees determined by the Commissioner of Health with the approval of the Director of the Budget.

The Commissioner of Health [shall] will adjust rates of payment for services provided by private duty nursing providers for the purpose of enhancing the provision, accessibility, quality, and/or efficiency of home care services. These rate adjustments [shall] will be for the purposes of assisting such providers, located in social services districts that do not include a city with a population of over one million persons, in meeting the cost of;

- (i) Increased use of technology in the delivery of services, including clinical and administrative management information systems;
- (ii) Specialty training of direct service personnel in dementia care, pediatric care, and/or the care of other conditions or populations with complex needs;
- (iii) Increased auto and travel expenses associated with rising fuel prices, including the increased cost of providing services in remote areas;
- (iv) Providing enhanced access to care for high need populations.

**New York
5(a)**

The Commissioner [shall] will increase the rates of payment for all eligible providers in an amount up to an aggregate of \$16,000,000 annually for the periods June 1, 2006 through March 31, 2007, April 1, 2007 through March 31, 2008, and April 1, 2008 through March 31, 2009.

Rates will be adjusted in the form of a uniform percentage add-on as calculated by the Department, based upon the proportion of total allocated dollars, to the total Medicaid expenditures for covered home care services provided in local social services districts that do not include a city with a population over one million. All government and non-government owned or operated providers are eligible for this adjustment pursuant to the same uniformly applied methodology.

Services Provided to Medically Fragile Children

For purposes of this section, for the period beginning October 1, 2020 and thereafter, a medically fragile child [shall] will mean a child, up to twenty-[one] three years of age, who is at risk of hospitalization or institutionalization for reasons that include but are not limited to the following: children who are technologically-dependent for life or health-sustaining functions; require complex medication regimen or medical interventions to maintain or improve their health status; or are in need of ongoing assessment or intervention to prevent serious deterioration of their health status or medical complications that place their life, health or development at risk. These children are capable of being cared for at home if provided with appropriate home care services including but not limited to continuous nursing services.

For the period January 1, 2007 [through December 31, 2010] and thereafter, rates of payment for continuous nursing services for medically fragile children [shall] will be established to ensure the availability of such services or programs, and [shall] will be established at a rate that is thirty percent higher than the provider's current rate for private duty nursing services. Providers that receive such rates for continuous nursing services for medically fragile children must use these enhanced rates to increase payments to registered nurses or licensed practical nurses who provide these services to medically fragile children. All government and non-government owned or operated providers are eligible for this adjustment pursuant to the same uniformly applied methodology.

For the period beginning October 1, 2020, providers who enroll in the medically fragile children private duty nursing provider directory will receive an enhanced rate of fifteen percent effective October 1, 2020; thirty percent effective April 1, 2021; and forty-five percent effective April 1, 2022.

Nursing Services (Limited)

The Commissioner of Health, subject to the approval of the Director of the Budget, establishes reimbursement rates for certain nursing services provided to eligible residents by a certified operator of an adult home or enriched housing program that has been issued a limited license by the Department. A limited license may be issued to the certified operator of an adult home or enriched housing program and allows such operator to directly provide certain

2020 Title XIX State Plan
Fourth Quarter Amendment
Summary

SUMMARY
SPA #20-0060

This State Plan Amendment proposes to authorize the Commissioner of Health to establish fees for the reimbursement of private duty nursing (PDN) services with approval from the director of budget. This will allow for more consistent fees throughout the various regions of New York state. Fees are currently set by the counties.

- Increase PDN fee-for-service reimbursement, for nursing services provided to medically fragile children, and individuals transitioning out of such category of care, for a period of 3 years until reaching the benchmark developed by the Commissioner of Health.
- Create a PDN directory of fee-for-service providers, who will receive an increased fee for the fee-for-service reimbursement of PDN services provided to medically fragile children, and individuals transitioning out of such category of care. Directory enrollment is offered to all PDN providers available to serve medically fragile children. Providers enrolling in the directory shall ensure the availability and delivery of and shall provide such services to those individuals as are in need of such services.
- Increased fee-for-service reimbursement and access to providers shall decrease the risk of unnecessary hospitalizations and institutionalization of medically fragile children.

Appendix III
2020 Title XIX State Plan
Fourth Quarter Amendment
Authorizing Provisions

SPA 20-0060

1 § 367-r. Private duty nursing services worker recruitment and
2 retention program. 1. (a) The commissioner of health, with the approval
3 of the director of the budget, shall establish fees for the reimburse-
4 ment of private duty nursing services.

5 (b) The commissioner of health shall, subject to the provisions of
6 paragraph (b) of subdivision two of this section and to the availability
7 of federal financial participation, increase medical assistance rates of
8 payment by three percent for services provided on and after December
9 first, two thousand two, for private duty nursing services for the
10 purposes of improving recruitment and retention of private duty nurses.

11 [1-a.] 2. Medically fragile children. (a) In addition, the commission-
12 er shall further increase rates for private duty nursing services that
13 are provided to medically fragile children to ensure the availability of
14 such services to such children. In establishing rates of payment under
15 this subdivision, the commissioner shall consider the cost neutrality of
16 such rates as related to the cost effectiveness of caring for medically
17 fragile children in a non-institutional setting as compared to an insti-
18 tutional setting. Medically fragile children shall, for the purposes of
19 this subdivision, have the same meaning as in subdivision three-a of
20 section thirty-six hundred fourteen of the public health law. Such
21 increased rates for services rendered to such children may take into
22 consideration the elements of cost, geographical differentials in the
23 elements of cost considered, economic factors in the area in which the
24 private duty nursing service is provided, costs associated with the
25 provision of private duty nursing services to medically fragile chil-
26 dren, and the need for incentives to improve services and institute
27 economies and such increased rates shall be payable only to those
28 private duty nurses who can demonstrate, to the satisfaction of the

1 department of health, satisfactory training and experience to provide
2 services to such children. Such increased rates shall be determined
3 based on application of the case mix adjustment factor for AIDS home
4 care program services rates as determined pursuant to applicable regu-
5 lations of the department of health. The commissioner may promulgate
6 regulations to implement the provisions of this subdivision.

7 [2.] (b) Private duty nursing services providers which have their
8 rates adjusted pursuant to paragraph (b) of subdivision one of this
9 section and paragraph (a) of this subdivision shall use such funds sole-
10 ly for the purposes of recruitment and retention of private duty nurses
11 or to ensure the delivery of private duty nursing services to medically
12 fragile children and are prohibited from using such funds for any other
13 purpose. Funds provided under paragraph (b) of subdivision one of this
14 section and paragraph (a) of this subdivision are not intended to
15 supplant support provided by a local government. Each such provider,
16 with the exception of self-employed private duty nurses, shall submit,
17 at a time and in a manner to be determined by the commissioner of
18 health, a written certification attesting that such funds will be used
19 solely for the purpose of recruitment and retention of private duty
20 nurses or to ensure the delivery of private duty nursing services to
21 medically fragile children. The commissioner of health is authorized to
22 audit each such provider to ensure compliance with the written certifi-
23 cation required by this subdivision and shall recoup all funds deter-
24 mined to have been used for purposes other than recruitment and
25 retention of private duty nurses or the delivery of private duty nursing
26 services to medically fragile children. Such recoupment shall be in
27 addition to any other penalties provided by law.

28 (c) The commissioner of health shall, subject to the provisions of
29 paragraph (b) of this subdivision, and the provisions of subdivision
30 three of this section, and subject to the availability of federal finan-
31 cial participation, annually increase fees for the fee-for-service
32 reimbursement of private duty nursing services provided to medically
33 fragile children by fee-for-service private duty nursing services
34 providers who enroll and participate in the provider directory pursuant
35 to subdivision three of this section, over a period of three years,
36 commencing October first, two thousand twenty, by one-third annual
37 increments, until such fees for reimbursement equal the final benchmark
38 payment designed to ensure adequate access to the service. In developing
39 such benchmark the commissioner of health may utilize the average two
40 thousand eighteen Medicaid managed care payments for reimbursement of
41 such private duty nursing services. The commissioner may promulgate
42 regulations to implement the provisions of this paragraph.

43 3. Provider directory for fee-for-service private duty nursing
44 services provided to medically fragile children. The commissioner of
45 health is authorized to establish a directory of qualified providers for
46 the purpose of promoting the availability and ensuring delivery of fee-
47 for-service private duty nursing services to medically fragile children
48 and individuals transitioning out of such category of care. Qualified
49 providers enrolling in the directory shall ensure the availability and
50 delivery of and shall provide such services to those individuals as are
51 in need of such services, and shall receive increased reimbursement for
52 such services pursuant to paragraph (c) of subdivision two of this
53 section. The directory shall offer enrollment to all private duty nurs-
54 ing services providers to promote and ensure the participation in the
55 directory of all nursing services providers available to serve medically
56 fragile children.

Public Notice

MISCELLANEOUS NOTICES/HEARINGS

Notice of Abandoned Property Received by the State Comptroller

Pursuant to provisions of the Abandoned Property Law and related laws, the Office of the State Comptroller receives unclaimed monies and other property deemed abandoned. A list of the names and last known addresses of the entitled owners of this abandoned property is maintained by the office in accordance with Section 1401 of the Abandoned Property Law. Interested parties may inquire if they appear on the Abandoned Property Listing by contacting the Office of Unclaimed Funds, Monday through Friday from 8:00 a.m. to 4:30 p.m., at:

1-800-221-9311
or visit our web site at:
www.osc.state.ny.us

Claims for abandoned property must be filed with the New York State Comptroller's Office of Unclaimed Funds as provided in Section 1406 of the Abandoned Property Law. For further information contact: Office of the State Comptroller, Office of Unclaimed Funds, 110 State St., Albany, NY 12236.

PUBLIC NOTICE Department of Health

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for inpatient, long term care, and non-institutional services to comply with recently proposed statutory provisions. The following significant changes are proposed:

All Services

Effective for dates of service April 1, 2020 through March 31, 2021, and each state fiscal year thereafter, all non-exempt Department of Health state funds Medicaid payments will be uniformly reduced by \$2.5 billion. Such reductions will be applied only to the extent that alternative methods that achieve Medicaid state share savings annually are not implemented. Medicaid payments that will be exempted from the uniform reduction include:

1. Payments whereby federal law precludes such reduction, including:
 - Federally Qualified Health Center services;
 - Indian Health Services and services provided to Native Americans;
 - Supplemental Medical Insurance – Part A and Part B;
 - State Contribution for Prescription Drug Benefit (aka Medicare Part D payments);
 - Any local share cap payment required by the Federal Medical Assistance Percentage (FMAP) increase legislation;
 - Services provided to American citizen repatriates; and
 - Hospice Services.
2. Payments funded exclusively with federal and/or local funds include, but are not limited to, the following:
 - Upper payment limit payments to non-state owned or operated governmental providers certified under Article 28 of the NYS Public Health Law;
 - Certified public expenditure payments to the NYC Health and Hospital Corporation;
 - Certain disproportionate share payments to non-state operated or owned governmental hospitals;

- Certain managed care payments pursuant to section 3-d of Part B of the Chapter 58 of the Laws of 2010; and
 - Services provided to inmates of local correctional facilities.
3. Other Payments that are not subject to the reduction include:
 - Payments pursuant to Article 32, Article 31 and Article 16 of the Mental Hygiene Law;
 - Required payments related to the School Supportive Health Services Program and Preschool Supportive Health Services Program;
 - Early Intervention;
 - Payments for services provided by Other State Agencies including Office of Children and Family Services, State Education Department, and the Department of Corrections and Community Supervision.
 - Vital Access Providers and Vital Access Provider Assurance Program;
 - Physician Administered Drugs;
 - Court orders and judgments; and
 - Family Planning services.

Copies of the proposed state plan amendments will be on file in each local (county) social services district and available for public review.

PUBLIC NOTICE Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for institutional, non-institutional or long term care services to comply with proposed Medicaid Redesign Team II (MRT) initiatives. The following changes are proposed:

All Services

Effective for dates of service April 1, 2020 through March 31, 2021, and each State Fiscal Year (SFY) thereafter, all non-exempt Department of Health state funds Medicaid payments will be uniformly reduced by 1.875 percent. Medicaid payments that will be exempted from the uniform reduction include:

- Payments whereby federal law precludes such reduction, including:
 - Federally Qualified Health Center services;
 - Indian Health Services and services provided to Native Americans;
 - Supplemental Medical Insurance – Part A and Part B;
 - State Contribution for Prescription Drug Benefit (aka Medicare Part D payments);
 - Any local share cap payment required by the Federal Medical Assistance Percentage (FMAP) increase legislation;
 - Services provided to American citizen repatriates; and
 - Hospice Services.
- Payments funded exclusively with federal and/or local funds include, but are not limited to, the following:
 - Upper payment limit payments to non-state owned or operated governmental providers certified under Article 28 of the NYS Public Health Law;
 - Certified public expenditure payments to the NYC Health and Hospitals Corporation;
 - Certain disproportionate share payments to non-state oper-

ated or owned governmental hospitals;

- Certain managed care payments pursuant to section 3-d of Part B of the Chapter 58 of the Laws of 2010; and
- Services provided to inmates of local correctional facilities.
- Other Payments that are not subject to the reduction include:
 - Payments pursuant to Article 32, Article 31 and Article 16 of the Mental Hygiene Law;
 - Required payments related to the School Supportive Health Services Program and Preschool Supportive Health Services Program;
 - Early Intervention;
 - Payments for services provided by Other State Agencies including Office of Children and Family Services, State Education Department, and the Department of Corrections and Community Supervision;
 - Vital Access Providers and Vital Access Provider Assurance Program;
 - Physician Administered Drugs;
 - Children and Family Treatment and Support Services (CFTSS);
 - Court orders and judgments; and
 - Family Planning services.

The estimated annual net aggregate decrease in gross Medicaid expenditures attributable to this initiative contained in the budget for SFY 2020-21 is (\$438 million).

Non-Institutional Services

Care Management

Effective on or after April 1, 2020 and SFY thereafter, these proposals will:

- Implement Health Home Improvement, Efficiency, Consolidation and Standardization: These efficiencies include eliminating outreach payments, reducing unnecessary documentation, revising the criteria for admission, and re-evaluating the benchmarks for stepping patients down to lower levels of care management or graduation from a Health Home. Finally, placing the most seriously mentally ill clients in care management arrangements with appropriate caseload sizes – overseen by the Office of Mental Health – while moving lower acuity members into less intensive care management arrangements will both improve program quality and achieve efficiencies.
- Promote Further Adoption of Patient-Centered Medical Homes (PCMH): Continues incentive payments at current levels for lower cost, higher value PCMH programs while incorporating a tiered quality component into the incentive payments to align with other State initiatives such as the Prevention Agenda.
- Comprehensive Prevention and Management of Chronic Disease: Advances the use of evidence-based prevention strategies to manage highly prevalent chronic diseases, including diabetes, hypertension, asthma, smoking, osteoarthritis, chronic kidney disease, HIV/AIDS, and sickle cell disease. Specifically, the proposal will: (1) promote the use of evidence-based, self-care education, and prevention strategies; (2) implement an awareness campaign to educate Medicaid Managed Care (MMC) Plans, providers, and Medicaid members on the various resources and programs that are available; (3) educate the provider community relative to adherence to established evidence-based practice guidelines; (4) optimize services that are already covered by Medicaid, including expanding who can provide services; (5) optimize pharmacist services and leverage the frequency of patient visits to the pharmacy by expanding Collaborative Drug Therapy Management (CDTM) to the community setting, enable pharmacists to administer point-of-care testing for designated CLIA-waived tests and to initiate prescriptions for certain medications; (6) focus on chronic condition management within Patient-Centered Medical Homes (PCMHs) and Health Homes; initially, focus treatment and care management resources on adults with diabetes and hypertension, and children with asthma.
- Children's Preventive Care and Care Transitions: Promotes behavioral health integration in pediatrics by continuing ongoing pilot work focused on pregnancy and early childhood (e.g., preschool screening and universal, light-touch home visits) and leverages participation in CMMI's Integrated Care for Kids (InCK) model of

integration of medical and behavioral health care, using resources already available in the community. In addition, this proposal improves care transitions for children with chronic medical and behavioral conditions, with a special focus on children with sickle cell disease (SCD) moving from pediatric to adult care settings.

- Children and Family Treatment and Support Services (CFTSS) - Restores specialized transition rates for CFTSS.
 - Invest in Medically Fragile Children: Invests Medicaid resources to improve access to private duty nursing (PDN) for medically fragile children in order to prevent hospitalization and emergency visits, by leveraging additional utilization of telehealth, commercial insurance coverage for PDN, further PDN network development and enhanced rates. Specifically, the proposal would increase fee-for-service PDN rates over a three year period to benchmark to the current Medicaid Managed Care rates; create a PDN Network whereby PDN providers would receive a negotiated enhanced rate of payment for PDN services.
 - Preventive Dentistry: Promotes evidence-based preventative dentistry using fluoride varnish and silver diamine fluoride. Specifically, the proposal increases the application of fluoride varnish by primary care providers, including Registered Nurses, which will decrease early childhood decay and associated restorative costs. In addition, the proposal expands Medicaid dental coverage to include silver diamine fluoride which stops tooth decay and prevents additional oral complications.
 - Emergency Room Avoidance and Cost Reductions: this proposal reduces unnecessary Emergency Department (ED) utilization and/or cost by redesigning care pathways for high ED utilizing patients and transitions navigation to community services by: allowing sharing of individualized patient treatment plans for chronic conditions (through Qualified Entity (QEs)); expanding access to Urgent Care Centers by increasing co-location with Emergency Rooms; requiring Urgent Care Centers to accept Medicaid; and exploring a lower ED triage fee for non-emergency conditions.
 - Addressing Barriers to Opioid Care: Implements a series of Opioid related interventions to address certain barriers to care for Medicaid members, including but not limited to, better bundled payments that support opiate treatment through the adjustment of Ambulatory Patient Groups (APG) payments to eliminate unnecessary volume incentive and to promote more appropriate access including take home medication, when clinically appropriate; reduced Medicaid Coverage Limits for Rehabilitation Services as pathway to nonpharmacologic treatment alternative for pain management, and increased utilization of the Opioid Medical Maintenance (OMM) Model.
 - Promote Maternal Health to Reduce Maternal Mortality: Focuses on optimizing the health of individuals of reproductive age, including discussions on comprehensive family planning and patient centered primary and preventive care. The proposal aims to improve access to quality prenatal care, free from implicit bias, and ensuring postpartum home visits are available to all individuals who agree have a home visit after giving birth, by working with Medicaid Managed Care plans to identify and address the barriers to achieving these goals. The proposal also includes ensuring all pregnant individuals have access to childbirth education and supports the participation of birthing centers in the Perinatal Quality Collaborative.
- The estimated annual net aggregate decrease in gross Medicaid expenditures attributable to these initiatives contained in the budget for SFY 2020-2021 is \$86 million and for SFY 2021-2022 is \$140 million.

Pharmacy

Effective on or after April 1, 2020 and SFY thereafter, these proposals would:

- Reduce Drug Cap Growth by Enhancing Purchasing Power to Lower Drug Costs by providing the ability to negotiate supplemental rebates for new blockbuster drugs and gene therapies that do not yet have utilization; and the authority to negotiate value-based agreements with manufacturers.
- Reducing coverage of certain OTC products and increasing copayments (with exceptions for the most vulnerable populations).

bursment by 5 percent and eliminate funding associated with return on equity payments to for-profit nursing homes.

The estimated annual net aggregate decrease in gross Medicaid expenditures attributable to these initiatives contained in the budget for SFY 2020/2021 is \$854 million and for SFY 2021/2022 is \$1.672 billion.

The public is invited to review and comment on this proposed State Plan Amendment, a copy of which will be available for public review on the Department's website at http://www.health.ny.gov/regulations/state_plans/status. Individuals without Internet access may view the State Plan Amendments at any local (county) social services district.

PUBLIC NOTICE

New York City Deferred Compensation Plan & NYCE IRA

The New York City Deferred Compensation Plan & NYCE IRA (the "Plan") is seeking proposals from qualified vendors to provide master custodial services to the City of New York Deferred Compensation Plan. The Request for Proposals ("RFP") will be available beginning on Wednesday, March 18, 2020. Responses are due no later than 4:30 p.m. Eastern Time on Thursday, May 28, 2020. To obtain a copy of the RFP, please visit the Plan's web site at www1.nyc.gov/site/olr/about/about-rfp.page and download and review the applicable documents.

If you have any questions, please submit them by fax to Georgette Gestely, Director, at (212) 306-7376.

Consistent with the policies expressed by the City, proposals from certified minority-owned and/or women-owned businesses or proposals that include partnering arrangements with certified minority-owned and/or women-owned firms are encouraged. Additionally, proposals from small and New York City-based businesses are also encouraged.

PUBLIC NOTICE

Department of State

F-2019-1176

Date of Issuance – April 1, 2020

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The applicant has certified that the proposed activity complies with

and will be conducted in a manner consistent with the approved New York State Coastal Management Program.

In F-2019-1176 or the "Morgenstern Residence", the applicant Richard Morgenstern, is proposing to maintain as completed 4' x 100.5' pier with 4' x 15' "T" and 3'6" x 10' steps. Maintain as completed 4'8" of additional 4' wide "T", 6' davit, 4'-5' x 31.6" pier and 4' x 32'6" pier, one boat lift, two boat whips and two safety ladders. The authorized work is located at 300 Riviera Drive, Town of Oyster Bay, Nassau County, Great South Bay.

The applicant's consistency certification and supporting information are available for review at: http://www.dos.ny.gov/opd/programs/pdfs/Consistency/F-2019-1176_Morgenstern_App.pdf

Original copies of public information and data submitted by the applicant are available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue, in Albany, New York.

Any interested parties and/or agencies desiring to express their views concerning any of the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., 30 days from the date of publication of this notice, or, May 1, 2020.

Comments should be addressed to: Consistency Review Unit, Department of State, Office of Planning, Development & Community Infrastructure, One Commerce Plaza, 99 Washington Ave., Albany, NY 12231, (518) 474-6000, Fax (518) 473-2464. Electronic submissions can be made by email at: CR@dos.ny.gov

This notice is promulgated in accordance with Title 15, Code of Federal Regulations, Part 930.

Appendix V
2020 Title XIX State Plan
Fourth Quarter Amendment
Responses to Standard Funding Questions

**NON-INSTITUTIONAL SERVICES
State Plan Amendment #20-0060**

CMS Standard Funding Questions

The following questions are being asked and should be answered in relation to all payments made to all providers reimbursed pursuant to a methodology described in Attachment 4.19-B of the state plan. For SPAs that provide for changes to payments for clinic or outpatient hospital services or for enhanced or supplemental payments to physician or other practitioners, the questions must be answered for all payments made under the state plan for such service.

- 1. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by States for services under the approved State plan. Do providers receive and retain the total Medicaid expenditures claimed by the State (includes normal per diem, supplemental, enhanced payments, other) or is any portion of the payments returned to the State, local governmental entity, or any other intermediary organization? If providers are required to return any portion of payments, please provide a full description of the repayment process. Include in your response a full description of the methodology for the return of any of the payments, a complete listing of providers that return a portion of their payments, the amount or percentage of payments that are returned and the disposition and use of the funds once they are returned to the State (i.e., general fund, medical services account, etc.).**

Response: Providers do retain the payments made pursuant to this amendment. However, this requirement in no way prohibits the public provider, including county providers, from reimbursing the sponsoring local government for appropriate expenses incurred by the local government on behalf of the public provider. The State does not regulate the financial relationships that exist between public health care providers and their sponsoring governments, which are extremely varied and complex. Local governments may provide direct and/or indirect monetary subsidies to their public providers to cover on-going unreimbursed operational expenses and assure achievement of their mission as primary safety net providers. Examples of appropriate expenses may include payments to the local government which include reimbursement for debt service paid on a provider's behalf, reimbursement for Medicare Part B premiums paid for a provider's retirees, reimbursement for contractually required health benefit fund payments made on a provider's behalf, and payment for overhead expenses as allocated per federal Office of Management and Budget Circular 2 CFR 200 regarding Cost Principles for State, Local, and Indian Tribal Governments. The existence of such transfers should in no way negate the legitimacy of these facilities' Medicaid payments or result in reduced Medicaid federal financial participation for the State. This position was further supported by CMS in review and approval of SPA 07-07C when an on-site audit of these transactions for New York City's Health and Hospitals Corporation was completed with satisfactory results.

2. **Section 1902(a)(2) provides that the lack of adequate funds from local sources will not result in lowering the amount, duration, scope, or quality of care and services available under the plan. Please describe how the state share of each type of Medicaid payment (normal per diem, supplemental, enhanced, other) is funded. Please describe whether the state share is from appropriations from the legislature to the Medicaid agency, through intergovernmental transfer agreements (IGTs), certified public expenditures (CPEs), provider taxes, or any other mechanism used by the state to provide state share. Note that, if the appropriation is not to the Medicaid agency, the source of the state share would necessarily be derived through either through an IGT or CPE. In this case, please identify the agency to which the funds are appropriated. Please provide an estimate of total expenditure and State share amounts for each type of Medicaid payment. If any of the non-federal share is being provided using IGTs or CPEs, please fully describe the matching arrangement including when the state agency receives the transferred amounts from the local governmental entity transferring the funds. If CPEs are used, please describe the methodology used by the state to verify that the total expenditures being certified are eligible for Federal matching funds in accordance with 42 CFR 433.51(b). For any payment funded by CPEs or IGTs, please provide the following:**
- (i) a complete list of the names of entities transferring or certifying funds;**
 - (ii) the operational nature of the entity (state, county, city, other);**
 - (iii) the total amounts transferred or certified by each entity;**
 - (iv) clarify whether the certifying or transferring entity has general taxing authority: and,**
 - (v) whether the certifying or transferring entity received appropriations (identify level of appropriations).**

Response: Payments made to service providers under the provisions of this SPA are funded through a general appropriation received by the State agency that oversees medical assistance (Medicaid), which is the Department of Health. Payments made to service providers under the provisions of this SPA are funded through an appropriation within the Medicaid General Fund Local Assistance Account, which is part of the State's Medicaid Global Cap.

There have been no new provider taxes and no existing taxes have been modified associated with this SPA.

3. **Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to States for expenditures for services under an approved State plan. If supplemental or enhanced payments are made, please provide the total amount for each type of supplemental or enhanced payment made to each provider type.**

Response: The payments authorized for this provision are not supplemental or enhanced payments.

4. **For clinic or outpatient hospital services please provide a detailed description of the methodology used by the state to estimate the upper payment limit (UPL) for each class of providers (State owned or operated, non-state government owned or operated, and privately owned or operated). Please provide a current (i.e., applicable to the current rate year) UPL demonstration.**

Response: Private Duty Nursing payments are not subject to UPL requirements.

5. **Does any governmental provider receive payments that in the aggregate (normal per diem, supplemental, enhanced, other) exceed their reasonable costs of providing services? If payments exceed the cost of services, do you recoup the excess and return the Federal share of the excess to CMS on the quarterly expenditure report?**

Response: No. Governmental providers will receive payments based on a uniform fee schedule which is the same for both governmental and private providers. These payments will not exceed their costs to provide these services.

ACA Assurances:

1. **Maintenance of Effort (MOE).** Under section 1902(gg) of the Social Security Act (the Act), as amended by the Affordable Care Act, as a condition of receiving any Federal payments under the Medicaid program during the MOE period indicated below, the State shall not have in effect any eligibility standards, methodologies, or procedures in its Medicaid program which are more restrictive than such eligibility provisions as in effect in its Medicaid program on March 10, 2010.

MOE Period.

- **Begins on:** March 10, 2010, and
- **Ends on:** The date the Secretary of the Federal Department of Health and Human Services determines an Exchange established by a State under the provisions of section 1311 of the Affordable Care Act is fully operational.

Response: This SPA complies with the conditions of the MOE provision of section 1902(gg) of the Act for continued funding under the Medicaid program.

2. **Section 1905(y) and (z) of the Act provides for increased FMAPs for expenditures made on or after January 1, 2014 for individuals determined eligible under section 1902(a)(10)(A)(i)(VIII) of the Act. Under section 1905(cc) of the Act, the increased FMAP under sections 1905(y) and (z) would not be available for States that require local political subdivisions to contribute amounts toward the non-Federal share of the State's**

expenditures at a greater percentage than would have been required on December 31, 2009.

Prior to January 1, 2014 States may potentially require contributions by local political subdivisions toward the non-Federal share of the States' expenditures at percentages greater than were required on December 31, 2009. However, because of the provisions of section 1905(cc) of the Act, it is important to determine and document/flag any SPAs/State plans which have such greater percentages prior to the January 1, 2014 date in order to anticipate potential violations and/or appropriate corrective actions by the States and the Federal government.

Response: This SPA would [] / would not [] violate these provisions, if they remained in effect on or after January 1, 2014.

- 3. Please indicate whether the State is currently in conformance with the requirements of section 1902(a)(37) of the Act regarding prompt payment of claims.**

Response: The State does comply with the requirements of section 1902(a)(37) of the Act regarding prompt payment of claims.

Tribal Assurance:

Section 1902(a)(73) of the Social Security Act the Act requires a State in which one or more Indian Health Programs or Urban Indian Organizations furnish health care services to establish a process for the State Medicaid agency to seek advice on a regular ongoing basis from designees of Indian health programs whether operated by the Indian Health Service HIS Tribes or Tribal organizations under the Indian Self Determination and Education Assistance Act ISDEAA or Urban Indian Organizations under the Indian Health Care Improvement Act.

IHCIA Section 2107(e)(I) of the Act was also amended to apply these requirements to the Children's Health Insurance Program CHIP. Consultation is required concerning Medicaid and CHIP matters having a direct impact on Indian health programs and Urban Indian organizations.

- a) Please describe the process the State uses to seek advice on a regular ongoing basis from federally recognized tribes Indian Health Programs and Urban Indian Organizations on matters related to Medicaid and CHIP programs and for consultation on State Plan Amendments waiver proposals waiver extensions waiver amendments waiver renewals and proposals for demonstration projects prior to submission to CMS.**
- b) Please include information about the frequency inclusiveness and process for seeking such advice.**
- c) Please describe the consultation process that occurred specifically for the development and submission of this State Plan Amendment when it occurred and who was involved.**

Response: Tribal consultation was performed in accordance with the State's tribal consultation policy as approved in SPA 17-0065, and documentation of such is included with this submission. To date, no feedback has been received from any tribal representative in response to the proposed change in this SPA.
