RE: SPA #19-0034
Long Term Care Facility Services

Dear Mr. Holligan:

The State requests approval of the enclosed amendment #19-0034 to the Title XIX (Medicaid) State Plan for long term care facility services to be effective April 1, 2019 (Appendix I). This amendment is being submitted based on enacted legislation. A summary of the proposed amendment is provided in Appendix II.

This amendment is submitted pursuant to §1902(a) of the Social Security Act (42 USC 1396a(a)) and Title 42 of the Code of Federal Regulations, Part 447, Subpart C, (42 CFR §447).

A copy of the pertinent section of enacted legislation is enclosed for your information (Appendix III). Copies of the public notice of this proposed amendment, which was given in the New York State Register on March 27, 2019 is also enclosed for your information (Appendix IV). In addition, responses to the five standard funding questions are also enclosed (Appendix V).

If you have any questions regarding this State Plan Amendment submission, please do not hesitate to contact Regina Deyette, Medicaid State Plan Coordinator, Division of Finance and Rate Setting, Office of Health Insurance Programs at (518) 473-3658.

Sincerely,

Donna Frescatore
Medicaid Director
Office of Health Insurance Programs

**New York
6(a)(1)(ii)**

Effective on or after April 1, 2019, the administrative reimbursement methodology for the Consumer Directed Personal Assistance Program (CDPAP) will be based on a tiered per member per month approach. CDPAP reimbursement will include two distinct rates:

- 1) The services rates will be calculated consistent with existing methodology.
- 2) The administrative rates will be supported through a tiered reimbursement methodology. The tiers will be based on utilization of services.

Second Quarter Amendment
Summary

SUMMARY
SPA #19-0034

This State Plan Amendment proposes to incorporate a tiered per member per month approach to support the administration of the Fiscal Intermediary (FI) component of Consumer Directed Personal Assistance Services (CDPAS).

Appendix III
2019 Title XIX State Plan
Second Quarter Amendment
Authorizing Provisions

1 with all applicable federal and state laws and regulations, including
2 but not limited to those relating to wages and labor;

3 (C) the manner by which prospective contractors may seek such
4 selection, which may include submission by electronic means;

5 (ii) all reasonable and responsive offers that are received from
6 prospective contractors in timely fashion shall be reviewed by the
7 commissioner;

8 (iii) the commissioner shall award such contracts to the contractors
9 that best meet the criteria for selection and are best suited to serve
10 the purposes of this section and the needs of consumers;

11 (iv) all entities providing fiscal intermediary services on or before
12 April first, two thousand nineteen, shall submit an offer for a contract
13 under this section within sixty days after the commissioner publishes
14 the initial offer on the department's website. Such entities shall be
15 deemed authorized to provide such services unless: (A) the entity fails
16 to submit an offer for a contract under this section within the sixty
17 days; or (B) the entity's offer for a contract under this section is
18 denied;

19 (v) all decisions made and approaches taken pursuant to this paragraph
20 shall be documented in a procurement record as defined in section one
21 hundred sixty-three of the state finance law; and

22 (vi) the commissioner is authorized to reoffer contracts under the
23 same terms of this subdivision, if determined necessary by the commis-
24 sioner.

25 § 5. Subparagraph (i) of paragraph (c) of subdivision 4-a of section
26 365-f of the social services law, as added by section 1-a of part K of
27 chapter 57 of the laws of 2018 and as relettered by section two of this
28 act, is amended to read as follows:

29 (i) The commissioner [may] shall require a fiscal intermediary to
30 report annually on the direct care and administrative costs of personal
31 assistance services as accounted for by the fiscal intermediary. The
32 department [may] shall specify the [frequency and] format of such
33 reports, determine the type and amount of information to be submitted,
34 and require the submission of supporting documentation, provided, howev-
35 er, that the department shall provide no less than ninety calendar days'
36 notice before such reports are due.

37 § 6. Section 365-f of the social services law is amended by adding a
38 new subdivision 4-c to read as follows:

39 4-c. The commissioner shall convene and chair a stakeholder workgroup
40 pertaining to fiscal intermediary services and the needs of consumers.
41 The workgroup shall consist of, at a minimum, representatives of service
42 centers for independent living; statewide associations of fiscal inter-
43 mediaries; representatives of managed care entities under article
44 forty-four of the public health law and local social service districts;
45 consumers; and representatives of advocacy groups representing consumers
46 of services under this section. The workgroup shall be established no
47 later than May fifteenth, two thousand nineteen. The workgroup shall
48 identify and develop best practices pertaining to the delivery of fiscal
49 intermediary services; inform the criteria for use by the department for
50 the selection of entities under subdivision four-a of this section;
51 identify whether services differ for certain consumers and under what
52 circumstances; inform criteria in relation to the development of quality
53 reporting requirements; and work with the department to develop transi-
54 tion plans for consumers that may need to transition to another fiscal
55 intermediary.

**Appendix IV
2019 Title XIX State Plan
Second Quarter Amendment
Public Notice**

the 2006 final trend factor equal to the final Consumer Price Index (CPI) for all urban consumers less 0.25%.

Institutional Services

Effective on or after April 1, 2019, annual indigent care pool distributions for certain providers will be reduced.

The estimated annual net aggregate decrease in gross Medicaid expenditures attributable to this initiative contained in the budget for state fiscal year 2019/2020 is (\$275.6 million).

Effective on or after April 1, 2019, continues the supplemental upper payment limit payments made to general hospitals, other than major public general hospitals under institutional services of \$339 million annually.

For state fiscal year beginning April 1, 2019 through March 31, 2020, continues specialty hospital adjustments for hospital inpatient services provided on and after April 1, 2012, to public general hospitals, other than those operated by the State of New York or the State University of New York, located in a city with a population of over one million and receiving reimbursement of up to \$1.08 billion annually based on criteria and methodology set by the Commissioner of Health, which the Commissioner may periodically set through a memorandum of understanding with the New York City Health and Hospitals Corporation. Such adjustments shall be paid by means of one or more estimated payments. Payments to eligible public general hospitals may be added to rates of payment or made as aggregate payments.

Additional medical assistance, known as, Intergovernmental Transfer (IGT) payments, for inpatient hospital services may be made to public general hospitals operated by the State of New York or the State University of New York, or by a county which shall not include a city with a population over one million, and those public general hospitals located in the counties of Westchester, Erie, or Nassau, up to one hundred percent (100%) of each such public hospital's medical assistance, and uninsured patient losses after all other medical assistance, including disproportionate share hospital (DSH) payments to such public general hospitals. Payments will be made by means of one or more estimated distributions initially based on the latest DSH audit results, which shall later be reconciled to such payment year's actual DSH audit uncompensated care costs. Payments may be added to rates of payment or made as aggregate payments. Such payments will continue April 1, 2019 through March 31, 2021.

There is no change in gross Medicaid expenditures for this update.

Extends current provisions for services on April 1, 2019 through March 31, 2024 and thereafter, the reimbursable operating cost component for general hospital inpatient rates will be established with the 2006 final trend factor equal to the final Consumer Price Index (CPI) for all urban consumers less 0.25%.

The estimated annual net aggregate decrease in gross Medicaid expenditures for state fiscal year 2019/2020 is (\$114.5 million).

Capital related costs of a general hospital excluding 44% of the major movable costs and excluding staff housing costs will continue effective April 1, 2019 through March 31, 2024 and thereafter.

The estimated annual net aggregate decrease in gross Medicaid expenditures for state fiscal year 2019/2020 is (\$48.4 million).

Budgeted capital inpatient costs of a general hospital applicable to the rate year will be decreased to reflect the percentage amount by which the budget for the base year two years prior to the rate year for capital related inpatient expenses of the hospital exceeded actual expenses will continue effective April 1, 2019 through March 31, 2024 and thereafter.

The estimated annual net aggregate decrease in gross Medicaid expenditures for state fiscal year 2019/2020 is (\$15.9 million).

Effective for dates of service on or after April 1, 2019, update the historical year Medicaid claims used in the general hospital acute rate statewide price development from 2014 to 2017.

There is no change in gross Medicaid expenditures for this update.

Long Term Care Services

Effective on or after April 1, 2019, continues additional payments to non-state government operated public residential health care facili-

ties, including public residential health care facilities located in Nassau, Westchester, and Erie counties, but excluding public residential health care facilities operated by a town or city within a county, in aggregate amounts of up to \$500 million. The amount allocated to each eligible public RHCF will be in accordance with the previously approved methodology, provided, however that patient days shall be utilized for such computation reflecting actual reported data for 2016 and each representative succeeding year as applicable. Payments to eligible RHCF's may be added to rates of payment or made as aggregate payments.

Effective on or after April 1, 2019 and thereafter, the appeals cap in PHL 2808(1)(a)(17)(b) is extended. The current appeals cap provision establishes an eighty-million-dollar annual budget for the processing of rate appeals or reimbursement for construction that has been approved by the commissioner.

There is no additional estimated annual change to gross Medicaid expenditures as a result of the extension.

Effective on or after April 1, 2019 and thereafter the provision that rates of payment for RHCFs shall not reflect trend factor projection or adjustments for the period April 1, 1996 through March 31, 1997 is extended.

The estimated annual net aggregate decrease in gross Medicaid expenditures attributable to this initiative is (\$12.7 million).

Effective on or after April 1, 2019 and thereafter this provision continues a 0.25 reduction in the statutory trend factors of 2006.

The estimated annual net aggregate decrease in gross Medicaid expenditures attributable to this initiative is (\$13.4 million).

Effective on or after April 1, 2019 nursing home reimbursement case mix collections which impact the direct price component of nursing home Medicaid reimbursement. The direct statewide price shall be adjusted by a Medicaid-only case mix and shall be updated for a Medicaid-only case mix in January and July of each year, using the case mix data applicable to the previous period.

The estimated annual net aggregate decrease in gross Medicaid expenditures attributable to this initiative contained in the budget for state fiscal year 2019-2020 is (\$191 million).

Effective for dates of service on or after April 1, 2019 and thereafter, Certified Home Health Agencies (CHHAs) payments will continue to be based on episodic payments, except for such services provided to children under 18 years of age.

There is no additional estimated annual change to gross Medicaid expenditures as a result of this extension.

Effective on or after April 1, 2019, The Consumer Directed Personal Assistance Program (CDPAP), a personal care service model, permits chronically ill and/or physically disabled individuals receiving home care under the medical assistance program greater flexibility and freedom of choice in obtaining such services. Reimbursement for CDPAP services has been based on a per hour billing methodology. This change will move the administrative reimbursement methodology for CDPAP to a per member per month basis and maintains an hourly/daily reimbursement for service delivery.

The estimated annual net aggregate decrease in gross Medicaid expenditures attributable to this initiative contained in the budget for state fiscal year 2019-2020 is (\$28.7 million).

Effective on or after April 1, 2019 and thereafter, current provisions for certified home health agency administrative and general costs reimbursement limits are extended.

There is no additional estimated annual change to gross Medicaid expenditures as a result of this extension.

Effective on or after April 1, 2019 and thereafter, the total reimbursable state assessment on each residential health care facility's gross receipts received from all patient care services and other operating income on a cash basis for inpatient or health-related services, including adult day service, but excluding gross receipts attributable to payments received pursuant to Title XVII of the federal Social Security Act (Medicare), at six percent.

The extent to which a facility is reimbursed for the additional cost of the assessment is dependent upon Medicaid volume of services.

Appendix V
2019 Title XIX State Plan
Second Quarter Amendment
Responses to Standard Funding Questions

NON-INSTITUTIONAL SERVICES
State Plan Amendment #19-0034

CMS Standard Funding Questions

The following questions are being asked and should be answered in relation to all payments made to all providers reimbursed pursuant to a methodology described in Attachment 4.19-B of the state plan. For SPAs that provide for changes to payments for clinic or outpatient hospital services or for enhanced or supplemental payments to physician or other practitioners, the questions must be answered for all payments made under the state plan for such service.

- 1. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by States for services under the approved State plan. Do providers receive and retain the total Medicaid expenditures claimed by the State (includes normal per diem, supplemental, enhanced payments, other) or is any portion of the payments returned to the State, local governmental entity, or any other intermediary organization? If providers are required to return any portion of payments, please provide a full description of the repayment process. Include in your response a full description of the methodology for the return of any of the payments, a complete listing of providers that return a portion of their payments, the amount or percentage of payments that are returned and the disposition and use of the funds once they are returned to the State (i.e., general fund, medical services account, etc.).**

Response: Providers do retain the payments made pursuant to this amendment. However, this requirement in no way prohibits the public provider, including county providers, from reimbursing the sponsoring local government for appropriate expenses incurred by the local government on behalf of the public provider. The State does not regulate the financial relationships that exist between public health care providers and their sponsoring governments, which are extremely varied and complex. Local governments may provide direct and/or indirect monetary subsidies to their public providers to cover on-going unreimbursed operational expenses and assure achievement of their mission as primary safety net providers. Examples of appropriate expenses may include payments to the local government which include reimbursement for debt service paid on a provider's behalf, reimbursement for Medicare Part B premiums paid for a provider's retirees, reimbursement for contractually required health benefit fund payments made on a provider's behalf, and payment for overhead expenses as allocated per federal Office of Management and Budget Circular 2 CFR 200 regarding Cost Principles for State, Local, and Indian Tribal Governments. The existence of such transfers should in no way negate the legitimacy of these facilities' Medicaid payments or result in reduced Medicaid federal financial participation for the State. This position was further supported by CMS in review and approval of SPA 07-07C when an on-site audit of these transactions for New York City's Health and Hospitals Corporation was completed with satisfactory results.

2. **Section 1902(a)(2) provides that the lack of adequate funds from local sources will not result in lowering the amount, duration, scope, or quality of care and services available under the plan. Please describe how the state share of each type of Medicaid payment (normal per diem, supplemental, enhanced, other) is funded. Please describe whether the state share is from appropriations from the legislature to the Medicaid agency, through intergovernmental transfer agreements (IGTs), certified public expenditures (CPEs), provider taxes, or any other mechanism used by the state to provide state share. Note that, if the appropriation is not to the Medicaid agency, the source of the state share would necessarily be derived through either through an IGT or CPE. In this case, please identify the agency to which the funds are appropriated. Please provide an estimate of total expenditure and State share amounts for each type of Medicaid payment. If any of the non-federal share is being provided using IGTs or CPEs, please fully describe the matching arrangement including when the state agency receives the transferred amounts from the local governmental entity transferring the funds. If CPEs are used, please describe the methodology used by the state to verify that the total expenditures being certified are eligible for Federal matching funds in accordance with 42 CFR 433.51(b). For any payment funded by CPEs or IGTs, please provide the following:**
- (i) a complete list of the names of entities transferring or certifying funds;**
 - (ii) the operational nature of the entity (state, county, city, other);**
 - (iii) the total amounts transferred or certified by each entity;**
 - (iv) clarify whether the certifying or transferring entity has general taxing authority; and,**
 - (v) whether the certifying or transferring entity received appropriations (identify level of appropriations).**

Response: Payments made to service providers under the provisions of this SPA are funded through a general appropriation received by the State agency that oversees medical assistance (Medicaid), which is the Department of Health.

The source of the appropriation is the Medicaid General Fund Local Assistance Account, which is part of the Global Cap. The Global Cap is funded by General Fund and HCRA resources.

3. **Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to States for expenditures for services under an approved State plan. If supplemental or enhanced payments are made, please provide the total amount for each type of supplemental or enhanced payment made to each provider type.**

Response: The payments authorized for this provision are not supplemental or enhanced payments.

4. **For clinic or outpatient hospital services please provide a detailed description of the methodology used by the state to estimate the upper payment limit (UPL) for each class of providers (State owned or operated, non-state government owned or operated, and privately owned or operated). Please provide a current (i.e., applicable to the current rate year) UPL demonstration.**

Response: Personal Care payments are not subject to UPL requirements.

5. **Does any governmental provider receive payments that in the aggregate (normal per diem, supplemental, enhanced, other) exceed their reasonable costs of providing services? If payments exceed the cost of services, do you recoup the excess and return the Federal share of the excess to CMS on the quarterly expenditure report?**

Response: The rate methodology included in the State Plan for home care services is cost based, subject to ceilings. We are unaware of any requirement under current federal law or regulation that limits individual providers' payments to their actual costs.

ACA Assurances:

1. **Maintenance of Effort (MOE). Under section 1902(gg) of the Social Security Act (the Act), as amended by the Affordable Care Act, as a condition of receiving any Federal payments under the Medicaid program during the MOE period indicated below, the State shall not have in effect any eligibility standards, methodologies, or procedures in its Medicaid program which are more restrictive than such eligibility provisions as in effect in its Medicaid program on March 10, 2010.**

MOE Period.

- **Begins on: March 10, 2010, and**
- **Ends on: The date the Secretary of the Federal Department of Health and Human Services determines an Exchange established by a State under the provisions of section 1311 of the Affordable Care Act is fully operational.**

Response: This SPA complies with the conditions of the MOE provision of section 1902(gg) of the Act for continued funding under the Medicaid program.

2. **Section 1905(y) and (z) of the Act provides for increased FMAPs for expenditures made on or after January 1, 2014 for individuals determined eligible under section 1902(a)(10)(A)(i)(VIII) of the Act. Under section 1905(cc) of the Act, the increased FMAP under sections 1905(y) and (z) would not be available for States that require local political subdivisions to contribute amounts toward the non-Federal share of the State's expenditures at a greater percentage than would have been required on December 31, 2009.**

Prior to January 1, 2014 States may potentially require contributions by local political subdivisions toward the non-Federal share of the States' expenditures at percentages greater than were required on December 31, 2009. **However**, because of the provisions of section 1905(cc) of the Act, it is important to determine and document/flag any SPAs/State plans which have such greater percentages prior to the January 1, 2014 date in order to anticipate potential violations and/or appropriate corrective actions by the States and the Federal government.

Response: This SPA would [] / would not [✓] violate these provisions, if they remained in effect on or after January 1, 2014.

- 3. Please indicate whether the State is currently in conformance with the requirements of section 1902(a)(37) of the Act regarding prompt payment of claims.**

Response: The State does comply with the requirements of section 1902(a)(37) of the Act regarding prompt payment of claims.

Tribal Assurance:

Section 1902(a)(73) of the Social Security Act the Act requires a State in which one or more Indian Health Programs or Urban Indian Organizations furnish health care services to establish a process for the State Medicaid agency to seek advice on a regular ongoing basis from designees of Indian health programs whether operated by the Indian Health Service HIS Tribes or Tribal organizations under the Indian Self Determination and Education Assistance Act ISDEAA or Urban Indian Organizations under the Indian Health Care Improvement Act.

IHCIA Section 2107(e)(I) of the Act was also amended to apply these requirements to the Children's Health Insurance Program CHIP. Consultation is required concerning Medicaid and CHIP matters having a direct impact on Indian health programs and Urban Indian organizations.

- a) Please describe the process the State uses to seek advice on a regular ongoing basis from federally recognized tribes Indian Health Programs and Urban Indian Organizations on matters related to Medicaid and CHIP programs and for consultation on State Plan Amendments waiver proposals waiver extensions waiver amendments waiver renewals and proposals for demonstration projects prior to submission to CMS.**
- b) Please include information about the frequency inclusiveness and process for seeking such advice.**
- c) Please describe the consultation process that occurred specifically for the development and submission of this State Plan Amendment when it occurred and who was involved.**

Response: Tribal consultation was performed in accordance with the State's tribal consultation policy as approved in SPA 17-0065, and documentation of such is included

with this submission. To date, no feedback has been received from any tribal representative in response to the proposed change in this SPA.

**NON-INSTITUTIONAL SERVICES
State Plan Amendment #19-0034**

CMS Standard Access Questions

The following questions have been asked by CMS and are answered by the State in relation to all payments made to all providers under Attachment 4.19-B of the state plan.

- 1. Specifically, how did the State determine that the Medicaid provider payments that will result from the change in this amendment are sufficient to comply with the requirements of 1902(a)(30)?**

Response: This amendment seeks to rationalize reimbursement for Fiscal Intermediary administrative services, as defined in State law, provided to Medicaid fee-for-service members enrolled in the Consumer Directed Personal Assistance Program (CDPAP).

- 2. How does the State intend to monitor the impact of the new rates and implement a remedy should rates be insufficient to guarantee required access levels?**

Response: The State has various ways to ensure that access levels in the Medicaid program are retained and is currently not aware of any access issues. State law establishes the process for FIs that choose to cease operations or leave a service area. The State has issued guidance regarding these processes and will work with plans and LDSSs to oversee any transitions. Please see MLTC Policy 19.01 (https://www.health.ny.gov/health_care/medicaid/redesign/mrt90/mltc_policy/19-01.htm).

The State will monitor complaint hotlines to identify geographic areas of concern and/or service type needs. If Medicaid beneficiaries begin to encounter access issues, the Department would expect to see a marked increase in complaints. These complaints will be identified and analyzed in light of the changes proposed in this State Plan Amendment.

- 3. How were providers, advocates and beneficiaries engaged in the discussion around rate modifications? What were their concerns and how did the State address these concerns?**

Response: This change was enacted by the State Legislature as part of the negotiation of the 2019-20 Budget. The impact of this change was weighed in the context of the overall Budget in the State. The legislative process provides

opportunities for all stakeholders to lobby their concerns, objections, or support for various legislative initiatives.

- 4. What action(s) does the State plan to implement after the rate change takes place to counter any decrease to access if the rate decrease is found to prevent sufficient access to care?**

Response: Should any essential community provider experience Medicaid or other revenue issues that would prevent access to needed community services, per usual practice, the State would meet with them to explore the situation and discuss possible solutions, if necessary

- 5. Is the State modifying anything else in the State Plan which will counterbalance any impact on access that may be caused by the decrease in rates (e.g. increasing scope of services that other provider types may provide or providing care in other settings)?**

Response: The State continues to implement Medicaid reform initiatives to better align reimbursement and to ensure access to quality of care in the appropriate setting.
