*Based on year diagnosed

**Based on year reported (excludes inmates). Includes all newly-reports AIDS cases regardless of HIV diagnosis date.

Provisional, data as of August 12, 2015. County of residence is unknown for 14 cases.

***E.coli non-O157 and non-sero-grouped shigatoxin producing infection

****A change in surveillance is responsible for the decline in the number of encephalitis cases. As of 2013, laboratory requisitions are no longer being used to approximate cases of encephalitis.

*****Based on year reported (excludes inmates). Includes all newly-reported HIV cases, regardless of concurrent or subsequent AIDS diagnosis.

Provisional, data as of August 12, 2015.
