

Motor Vehicle Traffic Injuries St. Lawrence County Residents 2012-2014

The Concern

Motor Vehicle Traffic Injuries are the leading cause of injury related death in St. Lawrence County. Traffic crash-related injuries are the 5th leading cause of injury related hospitalization and a leading cause of injury related emergency department (ED) visits in St. Lawrence County.

Traffic crash-related injuries are not accidents! They are not random, uncontrollable acts of fate, but occur in predictable patterns, with recognizable risk factors and among identifiable populations. A traffic crash-related injury is a predictable and preventable event!

Magnitude of the Crash Problem

- Every two **months**, because of a traffic crash, an average of:
 - 2 St. Lawrence County resident(s) died
 - 6 St. Lawrence County residents were hospitalized
 - 107 St. Lawrence County residents were treated in an ED
- Annually, traffic crashes resulted in an average of:
 - \$1.2 Million in hospitalization charges
 - **Approximately \$83.3 Thousand was charged to publicly funded programs, such as Medicaid, Medicare, VA health care, and corrections.**
 - \$1.6 Million in ED charges
- 8% of hospitalized crash victims were released to another hospital, rehabilitation center or long-term care facility, **incurring additional costs.**
