

The Unity Hospital of Rochester PHI 471
1555 Long Pond Road Rochester, NY 14626

Clinical Staffing Committee and Clinical Staffing Plan 2022-3

Please see the Committee Charter document that includes the committee responsibilities, member eligibility, scope of representation from the various types of clinical units, frontline team member names and titles, and leader membership.

Individuals on this Committee were nominated and selected by their peer staff to represent the various units through an already-established Shared Governance Committee of Unity Hospital. The Clinical Staffing Committee Meetings are monthly with active participation on pertinent clinical staffing discussions. Minutes are sent out to each committee representative and are made available to be shared with any interested clinical staff.

The Unity Hospital of Rochester Nursing Staffing Plan has been developed by utilizing staffing grids as a guide for the various units that reflect the expected/ideal clinical staff to patient ratios. The grids reflect direct patient care givers: nursing staff (RN/LPNs), Patient Care Technicians (PCTs) and Patient Service Representatives (PSRs) The newly established Clinical Staffing Committee members reviewed, revised and approved the staffing grids for their perspective units.

In addition, The Unity Hospital of Rochester shares a successful Nursing Centralized Staffing Office that enhances ongoing, up to date, current staffing requirements, the full time Staffing Coordinator has easy access to each 4 week nursing schedule by unit and has access to current patient census for all units. The Centralized Staffing Coordinator receives all sick calls in order to enhance appropriate triaging of any per diem or part time staff to the unit of need. Floating staff from one unit, to a similar unit occurs when necessary to meet patient needs.

On the off shifts and weekends, an RN Nursing Supervisor continues the staffing coordination so that 24/7 the staffing needs at Unity Hospital can be addressed by this centralized process. The unit charge RNs are expected to communicate closely with the Staffing Coordinator/Nursing Supervisor by addressing changes/increases in patient acuity level that may necessitate additional staffing needs. Hospital census, that include new admissions, patient transfers and expected discharges, are numbers accessed each shift in order to anticipate any changes to staffing needs for the upcoming shifts.

In situations in which the expected nurse to patient ratio for safe staffing cannot be met by the number of staff previously scheduled, provisions and many options are then utilized that include:

- Asking staff to work an additional 4 hours or 8 hours to an existing shift
- Switch scheduled shift/day off to another shift/day to meet the present need
- Adjust the charge nurse to take a full patient assignment in addition to the charge nurse responsibilities
- Assess the skill mix and experience of team members in house and resource share as appropriate to meet the needs of acuity in individual departments
- Offer additional pay incentives to staff nurses in times of high RN vacancy rates
- Utilize Clinical Resource Nurse and unit Nurse Educators to take a patient assignment
- Utilize RN management to take a patient assignment
- Offer Office or specialty area nurses to assist on medical-surgical units as a "helping hands*" nurse that is paired with a scheduled unit staff nurse
- Agency RN utilization with contracts for areas with a vacancy
- Available Weekend Program
- Available Premier Per- Diem Program

ROCHESTER REGIONAL HEALTH

Ambulatory Staffing Committee

Clinical Staffing Committee and Clinical Staffing Plan 2023 & 2024

The Rochester Regional Health Ambulatory **Clinical Staffing Committee** was formulated and began meeting in November of 2023. Please see [below](#) for Committee Charter document that includes the committee responsibilities, member eligibility, scope of representation from the various types of clinical areas, frontline team member names and titles, and leader membership.

Individuals on this Committee were nominated and selected by their peer staff to represent the various areas of ambulatory care. The Clinical Staffing Committee Meetings are twice yearly and as needed with active participation on pertinent clinical staffing discussions. Minutes are sent out to each committee representative and are made available to be shared with any interested clinical staff.

The Rochester Regional Health Ambulatory **Nursing Staffing Plan** has been developed by utilizing staffing grids as a guide for the various areas that reflect the expected/ideal clinical staff to patient ratios. The grids reflect direct patient care givers: nursing staff (RN/LPNs), Medical Assistants (MAs) and Access Associates (AA). The newly established Clinical Staffing Committee members reviewed, revised and approved the staffing grids for their perspective units. Please see below for the staffing grids by units.

In addition, RRH Ambulatory has an established central process that evaluates ongoing, up to date, current staffing requirements. The full time Program Manager has easy access to each nursing schedule by service line and has access to current provider/patient schedules for all areas. The Program Manager receives all sick call escalations in order to enhance appropriate triaging of any per diem or part time staff to the area of need. Floating staff from one area, to a similar area, will occur when necessary to meet patient needs.

The site leader is expected to communicate closely with the Program Manager by addressing changes/increases in patient acuity or volume level that may necessitate additional staffing needs. Provider schedules/patient volume, that includes add-ons, provider schedule changes and pre-scheduled visits/procedures are numbers accessed each day in order to anticipate any changes to staffing needs for the upcoming shifts.

In situations in which the expected nurse to patient ratio for safe staffing cannot be met by the number of staff previously scheduled, many options are then utilized that include:

- Asking staff to work an additional 4 hours or 8 hours to an existing shift
- Utilize remote support for telephone triage and inbasket management
- Switch scheduled shift/day off to another shift/day to meet the present need
- Offer additional pay incentives to staff nurses in times of high RN or LPN vacancy rates
- Utilize Clinical Nurse Leader and service line Nurse Educators to take a patient assignment
- Utilize RN management to take a patient assignment
- Agency RN/LPN/MA/AA utilization with contracts for areas with a vacancy

Additional Support and collaboration within the Nursing Division:

Advanced Practice Providers

Care Management Nurses

Clinical Nurse Leader

Directors of Nursing

Environmental Services

Physicians
Infection Prevention
Nurse Educators
Occupational Therapist
Pharmacist Support
Physical Therapist
Quality Coordinator
Regulatory DON
Respiratory Therapy
Security
Social Work
Volunteers and Guest Services
Operational Leaders

Complaint Reporting:

Concerns related to the Staffing Plan should be entered into the Safe Connect Event reporting system. Concerns will be tracked and brought to the standing Clinical Staffing Committee for review and then responded to accordingly without retaliation.

Rochester Regional Health's electronic event reporting system. <https://intranet.rochesterregional.org/safeconnect/Pages/Home.aspx>

Concerns can also be brought forth to the immediate nurse leader in the department.

During Public Health Emergencies or situations that require activation of Incident Command/Emergency Operations Plans, staffing will be evaluated and adjusted following guidance set forth by regulatory agencies, executive leadership of Ambulatory and or health system, and individual acuity needs of departments.
