As we look forward to the transition to our new

EI-Hub: Project Status Updates

EI-Hub Installation & Configuration

- Development and configuration is ongoing
- PCG is rolling out demonstrations of the solution's capability
- BEI is working with PCG on component testing to help ensure a smooth overall UAT experience
 - Learning Management System
 - Service Logging
 - Provider Enrollment

Organizational Change Management

- Released Hub Club Issues 12, 13
- Tested LMS & made changes, based on tester feedback
- Completed 4th Stakeholder readiness survey
- Service Logging Feedback Session

Data Migration

- Identified data is being mapped from NYEIS to EI-Hub
- Tests are being performed on migration runs

EI-Hub: Project Status Updates

BEI Program Status

- Transportation claiming has been reviewed with the municipalities and will be available at go live
- Addition of qualified professions including ABA
- Multidisciplinary Assessment (MDA) will be post Go-Live of new solution

System Security

- PCG is completing the NYS System Security Plans
- Multifactor authentication will be employed
- Confirm adherence to NYS standards, HIPAA and FERPA protections

NYEIS Decommissioning

- NYEIS read-only timelines, and decommissioning date of September 1st, 2021 is under review as new timelines are developed.
- Once the NYEIS decommission process is complete, data and files in the NYEIS system will no longer be available

Project Area Status: Data Migration

Legacy NYEIS & EI-Hub

Resources related to NYEIS/EI-Hub Record Retention:

- Webinar “Attachments in NYEIS/EI-Hub and Record Retention”
 - Summarize current Early Intervention Program file retention policy, including:
 - State and provider record retention responsibilities
 - Intended purpose of attachments/files in NYEIS and EI-Hub
 - Attachments will not be migrated in EI-Hub as part of system implementation.
 - Users will be able to upload attachments into the EI-Hub, after go live.
 - Users will be able to access their files in NYEIS for 6 months post-transition.
 - Organizations and individuals should establish an independent and secure document repository.
 - Efforts to ensure retention should be underway.
- Q&A were distributed via BEI's listserv attached below.
